3. RISK FACTORS

3.1 GENERAL

PROSPECTIVE INVESTORS SHOULD CAREFULLY CONSIDER WITH THEIR OWN FINANCIAL AND OTHER PROFESSIONAL ADVISORS, THE FOLLOWING RISK FACTORS AND OTHER INVESTMENT CONSIDERATIONS, AS WELL AS ALL THE OTHER INFORMATION CONTAINED IN THIS BASE PROSPECTUS AND APPLICABLE FINAL TERMS, BEFORE MAKING ANY INVESTMENT DECISION WITH RESPECT TO THE COMPANY. SOME OF THESE RISKS ARE SUBJECT TO CONTINGENCIES WHICH MAY, OR MAY NOT, OCCUR AND THE COMPANY, AND ITS DIRECTORS, ARE NOT IN A POSITION TO EXPRESS A VIEW ON THE LIKELIHOOD OF ANY SUCH CONTINGENCIES OCCURRING.

THE RISK FACTORS BELOW ARE DIVIDED INTO: (I) RISKS RELATING TO THE ISSUER AND THE GROUP; AND (II) RISKS RELATING TO THE SECURED BONDS. IN TURN, THE RISKS RELATING TO THE ISSUER AND THE GROUP HAVE BEEN CATEGORISED UNDER THE FOLLOWING MAIN CATEGORIES, ACCORDING TO WHETHER THE RISK FACTORS RELATE TO: (I) THE ISSUER PER SE; (II) ECONOMIC AND FINANCIAL RISKS; AND (III) BUSINESS AND OPERATIONAL RISKS.

THE RISK FACTOR FIRST APPEARING UNDER EACH SUB-CATEGORY CONSTITUTES THAT RISK FACTOR WHICH THE DIRECTORS HAVE ASSESSED TO BE THE MOST MATERIAL RISK FACTOR UNDER SUCH SUB-CATEGORY AS AT THE DATE OF THIS BASE PROSPECTUS. SUBSEQUENT RISK FACTORS IN THE SAME SUB-CATEGORY ARE NOT RANKED IN ORDER OF MATERIALITY OR PROBABILITY OF OCCURRENCE. IN MAKING THEIR ASSESSMENT OF MATERIALITY, THE DIRECTORS HAVE EVALUATED THE COMBINATION OF: (I) THE PROBABILITY THAT THE RISK FACTOR OCCURS; AND (II) THE EXPECTED MAGNITUDE OF THE ADVERSE EFFECT ON THE FINANCIAL CONDITION AND PERFORMANCE, OPERATIONAL PERFORMANCE, BUSINESS AND, OR TRADING PROSPECTS OF THE COMPANY, AND, OR THE GROUP, IF THE RISK FACTOR WERE TO MATERIALISE, WHERE A RISK FACTOR MAY BE CATEGORISED IN MORE THAN ONE CATEGORY, SUCH RISK FACTOR ONLY APPEARS ONCE IN THE MOST RELEVANT CATEGORY OR SUB-CATEGORY FOR SUCH RISK FACTOR.

IF ANY OF THE RISKS DESCRIBED BELOW WERE TO MATERIALISE, THEY COULD HAVE A SERIOUS ADVERSE EFFECT ON THE COMPANY'S AND, OR GROUP'S FINANCIAL RESULTS, FINANCIAL CONDITION, OPERATIONAL PERFORMANCE, BUSINESS AND, OR TRADING PROSPECTS, AS WELL AS THE ABILITY OF THE COMPANY TO FULFIL ITS OBLIGATIONS UNDER THE SECURITIES ISSUED BY IT FROM TIME TO TIME, INCLUDING ITS OBLIGATIONS UNDER THE SECURED BONDS. THE RISKS AND UNCERTAINTIES DISCUSSED BELOW ARE THOSE IDENTIFIED AS SUCH BY THE DIRECTORS AS AT THE DATE OF THIS BASE PROSPECTUS, BUT THESE RISKS AND UNCERTAINTIES MAY NOT BE THE ONLY ONES THAT THE COMPANY AND, OR GROUP FACES OR COULD FACE. ADDITIONAL RISKS AND UNCERTAINTIES, INCLUDING THOSE WHICH THE COMPANY'S DIRECTORS ARE NOT CURRENTLY AWARE OF, OR THAT THE DIRECTORS CURRENTLY DEEM IMMATERIAL, INDIVIDUALLY OR CUMULATIVELY, MAY WELL RESULT IN A MATERIAL ADVERSE IMPACT ON THE COMPANY'S AND, OR GROUP'S FINANCIAL RESULTS, FINANCIAL CONDITION, OPERATIONAL PERFORMANCE, BUSINESS AND, OR TRADING PROSPECTS.

THIS BASE PROSPECTUS AND THE APPLICABLE FINAL TERMS, THE DOCUMENTATION INCORPORATED BY REFERENCE HEREIN, AND, OR ANY OTHER INFORMATION SUPPLIED IN CONNECTION WITH SECURED BONDS ISSUED BY THE COMPANY: (I) IS NOT INTENDED TO PROVIDE THE BASIS FOR ANY CREDIT OR OTHER EVALUATION; (II) IS NOT AND SHOULD NOT BE CONSIDERED AS A RECOMMENDATION BY THE COMPANY, THE DIRECTORS, ANY OF THE ADVISORS LISTED IN SECTION 5.1 BELOW, THE SPONSOR, OR ANY OF THE AUTHORISED FINANCIAL INTERMEDIARIES THAT ANY RECIPIENT OF THIS BASE PROSPECTUS, THE DOCUMENTATION INCORPORATED BY REFERENCE HEREIN, OR ANY OTHER INFORMATION SUPPLIED IN CONNECTION THEREWITH, SHOULD PURCHASE ANY SECURITIES ISSUED BY THE COMPANY, INCLUDING THE SECURED BONDS, AND,

THEREFORE, PROSPECTIVE INVESTORS SHOULD MAKE THEIR OWN EVALUATION OF ALL RISK FACTORS, AND SHOULD CONSIDER ALL OTHER SECTIONS IN THIS BASE PROSPECTUS; AND (III) CONTAIN STATEMENTS THAT ARE, OR MAY BE DEEMED TO BE, “FORWARD LOOKING STATEMENTS”.

3.2 FORWARD-LOOKING STATEMENTS

Forward-looking statements can be identified by the use of forward-looking terminology, including the terms “believes”, “estimates”, “forecasts”, “projects”, “anticipates”, “expects”, “envisages”, “intends”, “may”, “will”, or “should” or, in each case, their negative or other variations or comparable terminology. These forward-looking statements relate to matters that are not historical facts. They appear in a number of places within this Base Prospectus and include statements regarding the intentions, beliefs, or current expectations of the Company and, or the Directors concerning, amongst other things, the Company’s strategy and business plans, financial condition and performance, results of operations, liquidity, prospects, investments, and the markets in which the Company and the Group operates.

By their nature, forward-looking statements involve risks and uncertainties because they relate to events and depend on circumstances that may, or may not occur, in the future. Forward-looking statements are not guarantees of future performance and should therefore not be construed as such. The Company’s and, or the Group’s actual operational results, financial condition and performance, and trading prospects may differ materially from the impression created by the forward-looking statements contained in this Base Prospectus. In addition, even if the results of the operational results, financial condition and performance, and trading prospects of the Company and, or the Group are consistent with the forward-looking statements contained in this Base Prospectus, those results, or developments may not be indicative of results or developments in subsequent periods. Important factors that may cause these differences include, but are not limited to, those factors identified under section 3 of this Base Prospectus headed “Risk Factors” and elsewhere in this Base Prospectus.

All forward-looking statements contained in this Base Prospectus are made only as at the date hereof. Subject to applicable legal and regulatory obligations, the Company and its Directors expressly disclaim any obligations to update or revise any forward-looking statement contained herein to reflect any change in expectations with regard thereto or any change in events, conditions, or circumstances on which any such statement is based.

3.3 RISKS RELATING TO THE ISSUER AND THE GROUP

3.3.1 *Risks associated with the dependency of the Issuer on the performance of its Subsidiaries*

As further described in section 6 of this Base Prospectus, the Issuer is the ultimate holding company of the Group. As a finance and holding company, the majority of the Issuer’s assets consist of loans granted to its Subsidiaries and shares held in the Guarantors and other Subsidiaries of the Issuer, with the only revenue-generating activities of the Issuer being the receipt of interest income on funds advanced to its Subsidiaries and dividends received from its Subsidiaries, from time to time. The Issuer is thus economically dependent on the operational results, the financial position and the financial performance of the Guarantors and its other Subsidiaries. Consequently, the financial and operational results of the Guarantors and other Subsidiaries of the Issuer have a direct effect on the Issuer’s financial position.

The ability of a Subsidiary of the Issuer to effect payments of principal and interest to the Issuer in the repayment of a loan, and the distribution of dividends by a Subsidiary in favour of the Issuer, is dependent on the cash flows and earnings of the relative Subsidiary, which may be restricted by: (i) changes in applicable laws and regulations; (ii) the terms of agreements to which they are or may become party, including the agreement governing their existing indebtedness, if any; (iii) risks of delays in completion of development projects; (iv) slowdowns in the tempo of property sales; and, or (v) other factors beyond the control of the relative Subsidiary.

The distribution of a dividend to the Issuer will depend upon, amongst other factors, the profit for the year, the view of the board of directors of the respective Subsidiary on the prevailing market outlook and future investments, any debt servicing requirements, the cash flows of the relative Subsidiary, working capital requirements, and the requirements of the Companies Act. In terms of Maltese law, a company may not make a distribution except out of profits available for distribution or if the directors of the respective Subsidiary conclude that it would not be in the company’s best interests. Any of the foregoing could limit the payment of dividends to the Issuer or, if the Subsidiary does pay a dividend, the amount thereof.

3.3.2 *Risks relating to the loss of senior management and other key personnel*

The Group believes that its growth is partially attributable to the efforts and abilities of the members of its executive management team and other key personnel, including executive, management, sales, investment, and project management personnel and upon its ability to attract, develop and retain such key personnel to manage and grow the business.

Moreover, if one or more of the members of this team were unable or unwilling to continue in their present position, particularly if such members are lost to competitors of the Group, the Group might not be able to replace them within the short term, which could have a material adverse effect on the Group’s business, financial condition, and results of operations.

3.3.3 *Risks relating to the Group’s ability to secure sufficient project financing*

The Group requires additional funding to complete its property developments. The Group has obtained bank funding to finance 70% of the development costs of its existing projects and expects to fund the balance of the development costs through a combination of retained profits and revenues generated from the Group’s operations. The Group intends to part fund the development costs of the Birżebbuġa Site – Portion B and the Qawra Site from the net bond proceeds, with the balance being funded from revenue generated by the Golden Care Home and the Porziuncola Care Home, as well as retained profits from the Group’s other property development projects.

In the case that: (i) the Group’s property developments are not fully completed in accordance with the expected timeline of the Group; (ii) the Group is unable to sell the units forming part of its property development projects at the projected prices or within the planned timeframe; or (iii) the Qawra Site is not acquired because the conditions in the relative promise of sale agreement to proceed with the sale are not satisfied, the Group may be unable to obtain the full capital it requires for the completion of its existing and new property developments. Accordingly, the Bondholders are subject to the risk that the completion of the existing developments and, or the new developments may be stalled and, or suspended until the necessary financing is obtained, if at all. A shortfall in the funding for the completion of the Group’s property developments could adversely affect the Issuer’s cash flows and revenue generation and its ability to repay principal and interest under the Secured Bonds.

3.4 RISKS RELATING TO THE PROPERTY SECTOR

The Group is heavily invested in the property acquisition, development, and management markets, which are constantly evolving market segments characterised by specific risks and uncertainties. The Issuer is thus intrinsically susceptible to the risks associated with activities in these market segments.

The occurrence of any of the factors referred to below could result in a Subsidiary of the Issuer defaulting in its obligation to pay any amounts due to the Issuer or the ability of a Subsidiary of the Issuer to distribute a dividend which, in turn, may negatively affect the Issuer's financial condition and results.

3.4.1 *Risks associated with the acquisition, development, and sale of property*

The Group's business relates to property acquisition and development targeted at the local commercial and residential market, which is subject to several specific risks:

- (a) the risk of delays, including albeit not limited to, delays (and, or refusals) in obtaining any necessary permits and cost overruns;
- (b) the risk of sales transactions not being made at the prices and within the timeframes envisaged, which may lead to difficulty in obtaining payment from third parties as well as risks of ultimate unfeasibility of development projects;
- (c) general industry trends, including the cyclical nature of the real estate market, economic depressions, change in market conditions including an oversupply of similar properties, a reduction in demand for real estate, changes in local preferences and tastes, as well as increased competition in any of the markets or sectors in which the Group is undertaking real estate development;
- (d) the possibility of delays pursuant to a strain on the availability of human and other capital resources required for the development and completion of such projects resulting from heightened levels of activity in the sector;
- (e) legal claims, with or without merit, instituted by third parties against the members of the Group; and
- (f) extensive regulation, including national and local regulation and administrative requirements and policies which relate to, among other things, planning, developing, land use, local urban regeneration strategy, fire, health and safety, and others.

The occurrence of any of the risk factors described above could have a material adverse effect on the Group's business, financial condition, and results of operations, including the increase of projected costs and times for completion of ongoing development projects.

3.4.2 *Risks associated with property valuations and net realisable value*

The Valuation Reports referred to in the Base Prospectus are prepared by independent qualified architects with consideration to the valuation standards published by the Royal Institution of Chartered Surveyors ('RICS'). However, the valuation of property is intrinsically subjective and based on several assumptions at a given point in time. In providing a market value of the respective properties, the architects have made certain assumptions which ultimately may cause the actual values to be materially different from any future values that may be expressed or implied by such forward-looking statements or anticipated on the basis of historical trends as reality may not match the assumptions. Subsequently, the Group may purchase and, or have purchased, property on the basis of inaccurate valuations. Moreover, property valuations are largely dependent on current and, or expected market conditions which may fluctuate from time to time. There can be no assurance that such property valuations will reflect actual market values.

3.4.3 *Risks associated with the engagement and, or the involvement of service providers and associated counterparty risks*

The project companies forming part of the Group rely upon service providers such as architects, building contractors and suppliers for the construction and completion of each of their respective developments. In terms of the contracts of works entered into between the project companies of the Group and third-party contractors, the latter is generally entitled to sub-contract its services to other third-party providers for the construction of the respective developments. This gives rise to counter-party risks in those instances where such service providers do not perform in line with the Group's expectations and in accordance with their contractual obligations. Failure to complete developments in a timely manner or, at all, may reduce the level of return on such developments and the Group may incur a loss. Furthermore, if these risks were to materialise, this will result in delays in development and completion which could have an adverse impact on the Group's business, its financial condition, results of operations and prospects, particularly if it is unable to sell the units by a certain date. Delays in the development and completion of the Group's developments could have a material adverse impact on the Issuer's cash flows and revenue generation.

3.4.4 *Risks relating to health and safety*

The Group's construction arm is susceptible to risks relating to the health and safety of employees and third parties, including the risk of serious injury or even fatality. The Group is required to adopt, maintain, and constantly review comprehensive health and safety policies and practices.

Any failure in health and safety performance may result in penalties for non-compliance with the relevant regulatory requirements. A failure which results in a major or significant health and safety incident, such as injury to, or fatality of, members of the construction workforce or bystanders may be costly in terms of potential liabilities as well as the generation of adverse publicity having a negative impact on the Group's reputation. There can be no assurance that the Group's health and safety policies and practices will prove effective in ensuring health and safety on its property development sites.

Any penalties or damages incurred by a Subsidiary of the Issuer, in the exercise of its obligations as contractor may, indirectly, affect the financial performance of the Issuer.

3.4.5 *Risks relating to environmental-related liabilities*

There can be no guarantee that the Group will not incur unexpected liabilities such as fines for environmental pollution in respect of any developments of the Group. These additional liabilities may only become apparent after the acquisition of sites by the Group. This could result in significant additional costs and, or delays in the completion of developments. Additional costs and, or fines may affect the ability of the Group to service or repay the Secured Bonds.

The reputation of the Group could be adversely affected if unexpected environmental issues are identified. Environmental issues that affect one site could affect the saleability of units forming part of Group's developments which share the Group's branding. A negative reputation may affect the Group's ability to complete and, or dispose of developments, and to use any such proceeds to service or repay the Secured Bonds.

3.4.6 Competing developments

Similar developments to any of the Group's developments may result in the Group not being able to sell the residential units forming part of such developments within the projected timelines or at the prices envisaged by the Directors. Although the Directors are of the view that their pricing strategy is attractive, should competing developments be completed within the same timeframe as any of the Group's developments, the Group's business, financial condition, and results of operations could be adversely affected.

3.4.7 The Group's insurance policies

The Group has maintained insurance at levels determined by the Group to be appropriate in light of the cost of cover and the risk profiles of the business in which the Group operates. Although the Group insures against damage incurred throughout the construction process, it may be difficult and may take time to recover such losses from insurers. In addition, the Group may not be able to recover the full amount from the insurer due to procedural restrictions or formalities, or due to substantive exclusions, exemptions, limitations on coverage, de minimis liability coverage limitations, prescriptive time periods and limitations, reporting or other disclosure requirements, licensing or other authorisation or registration requirements, breach of restrictive covenants or undertakings, breach of warranties and, or, representations, as well as restrictions or formalities relating to the initiation of, and control over, litigation, investigations or other proceedings relating thereto.

No assurance can be given that the Group's current insurance coverage would be sufficient to cover all potential losses, regardless of the cause, nor can any assurance be given that an appropriate coverage would always be available at acceptable commercial rates. In addition, changes in legislation or judicial interpretation, or the issuance or alteration of directives, orders, or other measures (whether interim or otherwise), by the relevant authorities (including but not limited to governmental departments or authorities, planning authorities, health and safety authorities, environmental authorities, among others) may impact the ability to recoup losses under insurance coverage held by the Group. Furthermore, the actions, or inactions of employees or other officials of the Group, or of contractors, sub-contractors, outsourcing parties, or other third-parties engaged by the Group from time to time, may affect the ability of the Group to successfully make a claim under its insurance policies. Any realized losses that are not covered by an insurance arrangement may have an adverse effect on the Group's financial performance.

3.4.8 Litigation risk

All industries, including the property development industry, are subject to legal claims, with or without merit. Defense and settlement costs can be substantial, even with respect to claims that have no merit. Due to the inherent uncertainty of litigation and dispute resolution processes, there can be no assurance that the resolution of any legal proceeding or dispute will not have a material adverse effect on the Group's future cash flow, results of operations or financial condition.

3.5 RISKS RELATING TO THE OPERATION OF CARE HOMES

3.5.1 Risks relating to the operation of care homes for the elderly, generally

As at the date of this Base Prospectus, the Group, through Golden Care, operates the Golden Care Home, and through PGC Care Home, operates the Porziuncola Care Home. The Group also plans to develop a third care home in Birżebbuġa, Malta – the Qajjenza Care Home.

Both Golden Care Home and Porziuncola Care Home provide long term care, post operative, rehab and respite services as well as dementia and memory loss services as further detailed in section 6.5.1. of this Base Prospectus. Pursuant to such operations, the Group is subject to general risks inherent in the provision of accommodation and care for elderly persons and patients suffering from forms of memory loss, as follows:

- policies, regulations, and laws relating to such operations and the healthcare industry as a whole are constantly evolving and relatively untested by the local courts;
- healthcare operations may be affected by changing consumer preferences, fluctuations in occupancy levels, increases in labour costs and other operating costs, competition from other healthcare operators (whether public or private), the oversupply of long-term care beds, market saturation and general economic conditions;
- breaches of law or license conditions could lead to, among other things, penalties, loss of operating licenses, adverse media attention and damage to reputation;
- if the care homes are not able to recruit and retain medical and nursing staff, their cost structure and profitability, but also their reputation and offering on the local market, will suffer;
- healthcare operators are exposed to the risk of actual or threatened medical indemnity or similar claims and litigation, including for medical negligence or malpractice. Although professional indemnity and public liability insurance in respect of a range of events to which the operation of such care homes may be susceptible has been taken out, no assurance can be given that such insurance will remain available in the future on commercially viable terms or at all;
- revenue leakages arising from empty beds and the turnover of patients as a result of inductive and preparatory assessments for prospective residents; and
- care homes are susceptible to the risks associated with pandemics and other forms of contagious or infectious diseases. Pandemics and other forms of contagious or infectious diseases could present major operational difficulties in protecting residents and maintaining an adequate staffing profile, in addition to disrupting normal business activities.

Any of the risks set out above may result in increased operational costs for the care homes operated and owned by the Group. Should the operating Subsidiaries be unable to reduce such costs in a timely manner and thus fail to adequately respond to the occurrence of any of events set out above, this may adversely affect the profitability of the Group's operations in this sector and in turn, the financial condition of the relative Subsidiaries and the Group as a whole.

3.5.2 Risks relating to labour force supply and staffing requirements

Through its operation of Golden Care Home and the Porziuncola Care Home, the Group provides long term care services, rehab, and respite services as well as dementia and memory loss services. At each care home, residents are able to avail themselves of several services depending on their individual needs and capabilities, on a short-term or long-term basis. Residents require a variety of services and different levels of care at any point in time, which are subject to continuous reassessment throughout the residents' stay at the Group's care homes. The Group's care homes rely on their team of healthcare workers, nurses, and other members of staff to provide the range of services available at the care home in accordance with a resident's individual needs and condition. The team must comprise the appropriate workers at all times in order to meet the day-to-day operational requirements of the care home as well as the individual requirements of each resident. Additionally, the team must be equipped to manage risks whilst responding quickly to medical emergencies.

Whilst the operation of care homes relies heavily on its workforce, labour force supply is a major challenge for the healthcare sector, including services targeted at the care for the elderly. The Group's care homes may not be able to maintain sufficient human resources as a result of any of the below:

- Healthcare workers and other members of staff may find more lucrative opportunities in the public sector as a result of the benefits available to public sector employees. Moreover, individuals may be discouraged from the healthcare sector as a whole and therefore opt for more financially rewarding sectors;
- The bulk of healthcare workers are third country nationals. Expatriates must meet certain requirements in order to obtain the necessary single permit which allows them to reside and work in Malta. The relative process for obtaining such permit is subject to labour market considerations, health screening, administrative processes, and lengthy corresponding processing times;
- Sector-specific requirements mandate the maintenance of staffing ratios in line with established standards and recommendations of regulatory authorities thus necessitating the continuous availability and employment of staff in accordance with applicable qualitative and quantitative requirements. Failure to meet such requirements may result in penalties and, in certain cases, the revocation of licenses;
- The sector is generally characterised by high turnover. Recruitment and retention of staff remains a significant challenge. A constant turnover of staff may lead to operational inefficiencies, increased monetary as well as opportunity costs, restricts training possibilities and causes disruptions in the operation and administration of the care home;
- The sector is generally characterised by low wages and demanding work conditions given that residents require 24-hour care at all times of the year; and
- Lack of human resources may encourage unsustainable increases in wage, erode revenues due to lost business and hamper growth and investment.

The inadequacy and, or lack of sufficient human resources for whatever reason, may negatively impact the operation of the Group's care homes, adversely affect the profitability of such operations as well erode the Group's overall competitiveness in this sector.

3.5.3 Risks relating to the termination of the AACCD Service Agreement

A significant portion of the revenue generated from the operations of both the Golden Care Home and the Porziuncola Care Home emanates from payments received from the AACCD in terms of services agreements. In terms of a services agreement entered into in the year 2024, Golden Care, as service provider, agreed to provide a number of long-term care beds at Golden Care Home to the AACCD, for a fixed period of five years ending on the 31 May 2029, subject to a renewal of a further year. Similarly, under a services agreement entered into in the year 2024, PGC Care Home, as service provider, agreed to provide a number of long-term care beds at the Porziuncola Care Home to the AACCD, for a fixed period of four years ending on the 31 December 2027, also subject to a further one-year renewal.

As at the date of this Base Prospectus, 221 long-term care beds and 400 long-term care beds at Golden Care Home and Porziuncola Care Home have been made available to the AACCD, respectively, in terms of these services agreements. This effectively means that through AACCD, the Government of Malta procures 92.9% of Golden Care Home's available long-term care beds and 100% of the Porziuncola Care Home's available long-term care beds.

Breaches of the AACCD services agreements on the part of either Golden Care or PGC Care Home could subject Golden Care or PGC Care Home to the imposition of penalties by AACCD and, in the case of a material breach by either of the afore-said companies, the early termination of the agreement.

Should the AACCD services agreements be terminated or otherwise not renewed, or be renewed on less favourable terms, the profitability and financial condition of the care homes and, in turn, the Group, may be materially adversely affected. Therefore, should the AACCD decide to terminate or discontinue its relationship with Golden Care and, or Porziuncola Care Home or alternatively, seek a reduction in long-term care beds at the care homes, Golden Care Home and Porziuncola Care Home shall be reliant on private clients for the occupation of beds at the care homes, which gives rise to certain risks inherent in the private sector to which Golden Care Home is not currently exposed to when having the AACCD as a single counterparty representing the vast majority of long-term care beds available at the care home.

The termination of the AACCD agreement in respect of the care homes or of any similar contract entered into in the future with respect to any of the care homes operated by the Group may have a negative effect on the financial performance of the operating Subsidiary and in turn, on the Group as a whole.

3.6 RISKS RELATING TO THE SECURED BONDS

3.6.1 Suitability

Debt instruments which may be redeemed by an issuer prior to their maturity date are considered as having an embedded call option, with the price of the bonds taking these components into account. The Secured Bonds may be redeemed at the option of the Issuer on an Early Redemption Date. In view of this early redemption component, the Secured Bonds are complex financial instruments for the purposes of MIFID II. Accordingly, the Secured Bonds are only suitable for investors who have the knowledge and experience to understand the risks related to the Secured Bonds. An investor must consult with an investment advisor before investing in the Secured Bonds. In particular, investors should consult with an investment advisor with a view to ascertaining that each prospective investor: (a) has sufficient knowledge and experience to make a meaningful evaluation of the Secured Bonds, the merits and risks of investing in the Secured Bonds and the information contained or incorporated by reference in the Prospectus or any applicable supplement; (b) has sufficient financial resources and liquidity to bear all the risks of an investment in the Secured Bonds, including where the currency for principal or interest payments is different from the prospective investor's currency and that the Secured Bonds meet the investment objectives of the prospective investor; (c) understands thoroughly the terms of the Secured Bonds; and (d) is able to

evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks. An informed investment decision can only be made by investors after they have read and fully understood the risk factors associated with an investment in the Secured Bonds, and the inherent risks associated with the Issuer's business.

3.6.2 No prior market for the Secured Bonds

Prior to the Programme and admission of the Secured Bonds to listing and trading, there has been no public market for the Secured Bonds within or outside Malta. Due to the absence of any prior market for the Secured Bonds, there can be no assurance that the price of the Secured Bonds will correspond to the price at which the Secured Bonds will trade in the market. The market price of the Secured Bonds could be subject to significant fluctuations in response to numerous factors, including the occurrence of any of the risk factors identified in this section 3 of this Base Prospectus.

3.6.3 Subsequent changes in interest rate and potential impact of inflation

The Secured Bonds are fixed rate debt securities. Investment in the Secured Bonds involves the risk that subsequent changes in market interest rates may adversely affect the market value of the Secured Bonds. Investors should be aware that because of the way yield is typically calculated by market participants, the price of fixed income securities (such as the Secured Bonds) tends to move in a way that is inversely proportional to changes in interest rates. Accordingly, when prevailing market interest rates are rising, the prices that market participants will generally be willing to pay for the Secured Bonds can be expected to decline. Conversely, if market interest rates are declining, secondary market prices for the Secured Bonds can generally be expected to rise. Moreover, fixed rate debt securities with a longer period to maturity will tend to reflect a greater degree of secondary market price volatility relative to movements in market interest rates when compared to fixed rate debt securities with a shorter remaining life.

The coupon payable on the Secured Bonds is a nominal interest rate. The real interest rate is computed by subtracting inflation from the nominal interest rate, the result of which indicates the real return on the Secured Bond coupons. In a period of high inflation, an investor's real return on the Secured Bonds will be lower than the Secured Bonds' nominal interest rate and thus undermine an investor's expected return. Furthermore, an increase in inflation may result in a decrease in the traded price of the Secured Bonds on the secondary market.

3.6.4 Orderly and liquid secondary market

The existence of an orderly and liquid market for the Secured Bonds depends on a number of factors, including but not limited to the presence of willing buyers and sellers of the Secured Bonds at any given time and the general economic conditions in the market in which the Secured Bonds are traded. Such factors are dependent upon the individual decisions of investors and the general economic conditions of the market, over which the Issuer has no control. There can be no assurance that continued or increased volatility and disruption in the capital markets will not impair the salability of the Secured Bonds in the secondary markets. Accordingly, there can be no assurance that an active secondary market for the Secured Bonds will develop, or, if it develops, that it will continue. Furthermore, there can be no assurance that an investor will be able to trade in the Secured Bonds at all.

3.6.5 Future public offers

No prediction can be made about the effect which any future public offerings of the Issuer's securities (including but not limited to the effects arising out of a change in the cash flow requirements of the Issuer or other commitments of the Issuer vis-à-vis the new security holders), or any takeover or merger activity involving the Issuer (including but not limited to a delisting, in full or in part, of the Secured Bonds), will have on the market price of the Secured Bonds prevailing from time to time.

3.6.6 Currency of reference

A Bondholder will bear the risk of any adverse fluctuations in exchange rates between the currency of denomination of the Secured Bonds (this being the Euro "€") and the Bondholder's currency of reference, if different. Such adverse fluctuations may impair the return of investment of the Bondholder in real terms after taking into account the relevant exchange rate.

3.6.7 Continuing obligations

After the Secured Bonds are admitted to trading on the Official List, the Issuer must remain in compliance with certain requirements. The MFSA has the authority to suspend trading of the Secured Bonds if, *inter alia*, it comes to believe that such a suspension is required for the protection of investors or of the integrity or reputation of the market. Furthermore, the MFSA may discontinue the listing of the Secured Bonds if, *inter alia*, it is satisfied that, owing to special circumstances, normal regular dealings in the Secured Bonds are no longer possible, or upon the request of the Issuer or the MSE. Any such trading suspensions or listing revocations or discontinuations described above, could have a material adverse effect on the liquidity and value of the Secured Bonds.

3.6.8 Amendments to the Terms and Conditions

The Terms and Conditions contain provisions for calling meetings of Bondholders to consider matters affecting their interests generally. In the event that the Issuer wishes to amend any of the Terms and Conditions it shall call a meeting of Bondholders in accordance with the provisions Security Trust Deed (see section 16.11 of the Base Prospectus for a description of the procedure of the calling of Bondholders' Meetings). These provisions permit defined majorities to bind all Bondholders including Bondholders who did not attend and vote at the relevant meeting and Bondholders who voted in a manner contrary to the majority. and uncontrolled discretion waive, on such terms and conditions as it shall deem expedient, any breach or proposed breach by the Issuer or the Guarantors of any of the covenants and provisions contained in the Security Trust Deed on the part of the Issuer and, or the Guarantors to be performed and observed but only if in so far as in its opinion the interests of the Bondholders of any Tranche shall not be materially prejudiced thereby. It also may, without the consent or sanction of the Bondholders, at any time and from time to time concur with the Issuer in making any modification to the Secured Bonds and the Security Trust Deed (other than any Basic Terms Modification) which in the opinion of the Security Trustee it may be proper to make PROVIDED THAT the Security Trustee is of the opinion that such modification is not materially prejudicial to the interests of the Bondholders.

3.6.9 Changes in law

The Terms and Conditions are based on Maltese law in effect as at the date of this Base Prospectus. No assurance can be given as to the impact of any possible judicial decision or change in Maltese law or administrative practice after the date of this Base Prospectus.

3.6.10 Early Redemption

The Secured Bonds are redeemable at the option of the Issuer. Any or all of the Secured Bonds may be redeemed by the Issuer on an Early Redemption Date. Once the Secured Bonds are redeemed, the relevant Bondholders shall no longer be entitled to any interest or other rights in relation to those Secured Bonds. If Secured Bonds are redeemed on an Early Redemption Date, Bondholders would not receive the same return on investment that it would have received if they were redeemed on the Redemption Date. In addition, Bondholders may not be able to re-invest the proceeds from an early redemption at yields that would have been received had they not been redeemed. This optional redemption feature may also have a negative impact on the market value of the Secured Bonds.

3.7 RISKS RELATING TO THE COLLATERAL SECURING THE SECURED BONDS AND THE GUARANTEES

The Secured Bonds will benefit from corporate guarantees granted by the Guarantors (see section 16.4.5 of this Base Prospectus). In addition, the Secured Bonds will benefit from the Collateral (see section 16.4.1 of this Base Prospectus).

The following are the material risks pertaining to the Guarantees and the Collateral:

3.7.1 Risks relating to the business of the Guarantors

The terms of the Guarantees are such that the Security Trustee may, upon an Event of Default, demand a cash payment in an amount equal to the principal and interest under the Secured Bonds from the Guarantors on first demand. PLAN BBG's sole asset is the Birżebbuġa Site and the sole asset of PLAN (Qawra) is the Qawra Site. The strength of the Guarantees (as a first-demand cash guarantee) depends on several factors, including: (i) whether the permits submitted to the Planning Authority for the development of the sites as residential developments will be approved; (ii) the timing for the development of these sites; and (iii) the timing of the sales of the units forming part of the said developments. No assurance can be given that the Guarantors will have sufficient funds available to make good for principal and interest payable to Bondholders following an Event of Default.

Furthermore, the risk factors contained in section 3.4 of this Base Prospectus entitled "Risks relating to the property sector" apply to the business of the Guarantors. If any of the risks mentioned in section 3.4 of this Base Prospectus were to materialise, they could have a material adverse effect on the ability of the Guarantors to satisfy their obligations under the Guarantees.

3.7.2 Risks relating to the Guarantees and the Collateral to be granted by the Issuer and the Guarantors

The Guarantors shall each grant a corporate guarantee, pursuant to which they shall bind themselves to pay all amounts outstanding under the Secured Bonds on a joint and several basis with the Issuer. The Security Trustee, for the benefit of the Bondholders, shall be entitled to request the Guarantors to pay both the interest due and the principal amount under the Secured Bonds on first demand if the Issuer fails to meet any amount, when due in terms of this Base Prospectus, in accordance with the terms of the Guarantees. The Guarantees will also entitle the Security Trustee to take action against the Guarantors without having to first take action against the Issuer for the payment of principal and interest under the Secured Bonds.

The strength of the undertakings given in the Guarantees and, accordingly, the level of recoverability by the Security Trustee from the Guarantors of any amounts due under any of the Secured Bonds, is dependent upon and directly linked to the financial position and solvency of the Guarantors. Accordingly, the Security Trustee may not be able to recover the full amount of principal and interest outstanding under the Secured Bonds by virtue of the enforcement of the Guarantees should the Guarantors' financial position and operational performance be adversely impacted throughout the term of the Secured Bonds.

The Guarantees will be further supported by the Collateral granted in favour of the Security Trustee for the benefit of Bondholders. There can be no guarantee that the value of the Hypothecated Property will be sufficient to cover the full amount of interest and principal outstanding under the Secured Bonds. The value of the Hypothecated Property may be adversely impacted by virtue of a number of factors, including, but not limited to, general economic factors. If any such circumstances were to arise or subsist at the time that the security interests are enforced by the Security Trustee, it could have a material adverse effect on the Security Trustee's ability to recover the full amount outstanding under the Secured Bonds.

The Valuation Reports shall be prepared by independent qualified architects and will contain certain assumptions, which ultimately may cause the actual values to be materially different from any future values that may be expressed or implied by such forward-looking statements or anticipated on the basis of historical trends as reality may not match the assumptions. There can be no assurance that the property valuations and property-related assets will reflect actual market values at the time of enforcement of the security interests over the applicable development securing the Secured Bonds. In addition, there can be no assurance that the Security Trustee will be able to appropriate and, or sell the Hypothecated Property at the price contained in the respective Valuation Reports.

3.7.3 Risks relating to the ranking of collateral

The Secured Bonds shall be secured by the Collateral in favour of the Security Trustee for the benefit of the Bondholders, which shall include the following:

- (i) a second-ranking general hypothec granted by the Issuer over its assets present and future for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon;
- (ii) a second-ranking general hypothec granted by PLAN BBG over its assets present and future for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon, excluding the Birżebbuġa Site – Portion A;
- (iii) a second-ranking special hypothec granted by PLAN BBG for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon over Birżebbuġa Site – Portion B (and any developments and constructions thereon);
- (iv) a first-ranking general hypothec granted by PLAN (Qawra) over its assets present and future for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon;
- (v) a first-ranking special hypothec granted by PLAN (Qawra) for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon over the Qawra Site (and any developments and constructions thereon);
- (vi) a first-ranking special privilege granted by PLAN (Qawra) in terms of article 2010(1)(c) of the Civil Code over the Qawra Site securing an amount equivalent to the funds disbursed by the Security Trustee to the vendor(s) for the purposes of funding the acquisition price of the Qawra Site; and
- (vii) the Pledge of Insurances Agreements.

In terms of Maltese law, hypothecary debts are paid according to the order of registration in the Public Registry in Malta. The Issuer and PLAN BBG have each constituted a first-ranking general hypothec, in favour of the security trustee of the 2023 Bond Issue, over their assets present and future for the full nominal value of the 2023 Second Bonds and interest thereon, and PLAN BBG has also constituted a first-ranking special hypothec, in favour of the security trustee of the 2023 Bond Issue, for the full nominal value of the 2023 Secured Bonds and interest thereon over the Birżebbuġa Site (and any developments and constructions thereon). It also constituted a first-ranking special privilege over the Birżebbuġa Site as security for the amount of €9,923,420, in favour of the security trustee for the 2023 Bond Issue.

Accordingly, should the Security Trustee declare that an Event of Default has occurred which is continuing, the Security Trustee, for the benefit of Bondholders, shall, by virtue of the general hypothecs, be paid out of the assets of the Issuer and PLAN BBG and, by virtue of the special hypothec and the special privilege, be paid out of the Birżebbuġa Site – Portion B (and any developments and constructions thereon) after the security trustee of the 2023 Bond Issue.

In addition to the aforesaid, the Security Trustee's rights in respect of the Collateral are also subject to the ranking of privileged creditors. The Security Trustee will be paid out of the assets of the Issuer and, or the Guarantors secured by the Collateral after privileged creditors. Privileged creditors include, but are not limited to, architects, contractors, masons, and other workmen, over an immovable constructed, reconstructed or repaired for the debts due to them in respect of the expenses and the price of their work. There can be no guarantee that such security interests or other encumbrances, as well as privileges or security interests accorded by law in specific situations, will not arise during the course of the Issuer's and, or the Guarantor's PLAN BBG's business and, or PLAN (Qawra)'s business which may rank with priority or preference to the Collateral.

In terms of the Security Trust Deed, PLAN BBG and PLAN (Qawra) undertook to ensure that any contractors engaged for the development of the Birżebbuġa Site shall waive their rights to the registration of a special privilege with the Public Registry in Malta over the said site to secured amounts due to them for works carried out. Notwithstanding the above waiver, no assurances can be given that a sub-contractor will not register a special privilege over the Birżebbuġa Site – Portion B (and any developments and constructions thereon) and/or the Qawra Site. In addition, over the course of its business, the Issuer and, or PLAN BBG and/or PLAN (Qawra) may contract debts with other privileged creditors.

A pledge confers upon the creditor the right to obtain payment out of the thing pledged with privilege over other creditors. Notwithstanding that the Security Trustee is a privileged creditor in respect of the payment out of the assets of the pledge of insurances in terms of the Pledge of Insurances Agreement, privileged creditors are afforded a ranking at law. Accordingly, the Security Trustee will rank after the claims of privileged creditors which rank higher than its privileged claim to the assets secured by the pledge of insurances in terms of the Pledge of Insurances Agreement. In addition, the proceeds from the Pledge of Insurance Policy Agreement to be established by PLAN BBG in relation to the Birżebbuġa Site – Portion B shall be applied, firstly, for the benefit of the bondholders of the 2023 Bond Issue, and secondly, for the benefit of the Bondholders.

The ranking of collateral has a bearing on the success of a creditor to get paid should the Issuer or PLAN BBG or PLAN (Qawra) not have sufficient assets to pay all its creditors. The Security Trustee will be paid out of the assets of the Issuer and, or PLAN BBG after privileged creditors and those creditors which are given priority over the relevant Collateral by law. Accordingly, in the case of a competition of creditors, Bondholders may not recover their investment in the Secured Bonds, whether in full or in part.

3.7.4 Risks relating to the receipt of proceeds pertaining to the Birżebbuġa Site – Portion B

In view of the second-ranking of the special hypothec registered over Birżebbuġa Site – Portion B (and any developments and constructions thereon) securing the Secured Bonds, the terms of the Trust Deed provide that the Security Trustee shall only be entitled to receive a percentage of the Projected Sales Price after the security trustee of the 2023 Bonds receives €12 million in the reserve account it maintains for the benefit of the 2023 Bondholders. In the event that there is a slowdown in sales of any unit / garage / car space forming part of the Birżebbuġa Site – Portion B, this may adversely impact the ability of the Security Trustee to credit the Reserve Account with the total amount outstanding under the Secured Bonds which in turn may have a material adverse effect on the Bondholders.

6.2 RECENT CORPORATE RESTRUCTURING

The Issuer was incorporated in 2022, with the name Katari Group Limited, and was subsequently converted to a public limited liability company on 29 September 2023. Historically, the companies forming part of the Group, save for PLAN (Mosta) (in which Mr. Paul Attard held an 80% interest), were wholly owned directly by Mr. Paul Attard.

In 2023, the operating Subsidiaries of the Issuer were the subject of a restructuring exercise resulting in the creation and formation of the Group in its present form. This restructuring entailed a share for share exchange whereby the Issuer issued 23.1 million shares of €1.00 each to Mr. Paul Attard in return for the following shares previously held by Mr. Paul Attard:

- 50,000 shares of a nominal value of €1.00 each in Golden Care representing 100% of the issued share capital of Golden Care.
- 1,000,000 shares of a nominal value of €1.00 each in PLAN Property Holdings representing 100% of the issued share capital of PLAN Property Holdings.
- 800,000 shares of a nominal value of €1.00 each in PLAN C&T Services representing 100% of the issued share capital of PLAN C&T Services.
- 400,000 shares of a nominal value of €1.00 each in PLAN Property Holdings 2 representing 100% of the issued share capital of PLAN Property Holdings 2 Limited (now struck off following a merger with PLAN C&T Services).

- 600 Ordinary A Shares of a nominal value of €1.00 each in GAP Group Investments (II) representing 33.3% of the issued share capital of GAP Group Investments (II).

Pursuant to the restructuring of the Group, the Issuer became the finance and holding company of the Group. Within the Group six centralized departments were constituted, as follows:

- Human resources
- Finance
- Procurement
- Property sale
- Marketing; and
- Project office

This structure is intended to efficiently manage the two key components of the Group's operations, namely the operation of care homes and property development.

In January 2024, the Group incorporated a new company, PGC Care Home, the operator of the Porziuncola Care Home. Subsequently, in December 2024, as a result of an amalgamation, PLAN C&T Services (as the acquiring company) acquired the assets and liabilities of PLAN Property Holdings 2 Limited (as the acquired company) - a company previously wholly and directly owned by the Issuer and registered in Malta as a private limited liability company with registration number C 85298. As a result of the amalgamation, PLAN Property Holdings 2 Limited has ceased to exist.

In July 2025, the Group incorporated two new companies: PLAN Qajjenza Holdings and Golden Care Qajjenza. PLAN Qajjenza Holdings has been earmarked to acquire the Birzebbuġa Site – Portion A (at a future date following the Bond Issue), and Golden Care Qajjenza was incorporated for the specific purpose of operating the Qajjenza Care Home, once developed.

In August 2025, the Group also incorporated a new company, PLAN (Qawra), for the specific purpose of acquiring and developing the Qawra Site.

6.3 OVERVIEW OF THE ISSUER'S BUSINESS AND PRINCIPAL ACTIVITIES

The Issuer is the holding and finance company of the Group and was incorporated for the purposes of financing the requirements of its Subsidiaries. The Issuer does not carry out any trading activities of its own and its revenue is limited to the dividends it receives from its Subsidiaries and interest receivable due under intra-group loan agreements. The Issuer is therefore dependent on the business prospects of its operating Subsidiaries.

As at the date of this Base Prospectus, the Issuer (as lender) has entered into an intra-group conditional loan agreement with the PLAN BBG (as borrower) for the purpose of on-lending the aggregate proceeds from the 2023 Bond Issue.

PLAN BBG intends to finance the development and completion of the Birzebbuġa Site – Portion B through proceeds received from Secured Bonds issued pursuant to the Programme, which proceeds shall be on lent by the Issuer to PLAN BBG, by virtue of intra-group loan agreements. PLAN (Qawra) intends to finance the acquisition, the development and completion of the Qawra Site through proceeds received from Secured Bonds issued pursuant to the Programme, which proceeds shall be on lent by the Issuer to PLAN (Qawra).

Prior to the expiry of this agreement, a new service agreement was entered into in July 2024 (as subsequently amended in July 2025), for a fixed period of five years, subject to renewal of a further year, commencing from 1 June 2024 to 31 May 2029. Pursuant to this service agreement, Golden Care shall make available 239 long-term care beds to the AACCD with the possibility to increase the number of beds, subject to availability, with the consent of the Older Persons Standards Authority and the Golden Care Home.

As at the date of this Base Prospectus, 239 long-term care beds have been allocated to the Government of Malta, through the AACCD. The services agreement stipulates fixed rates payable to Golden Care, for three different categories of residents, ranging from low, medium, or high dependency residents.

6.5.1.2 *Porziuncola Care Home*

Emphyteutical Concession

In the year 2022, PLAN Property Holdings was granted by title of temporary emphyteusis for a period of 67 years, the house without official number but named “Porziuncola”, including its surrounding gardens and land and the farmhouse without an official number and name, to be used as a retirement home for the elderly. The property covers an area of approximately 16,900 square metres and is located on Triq il-Kosta, Triq il-Porzjuncola and Triq il-Wirt Naturali, Bahar ic-Caghaq, in the limits of Naxxar, Malta. By virtue of this deed of emphyteusis, PLAN Property Holdings was granted the right to demolish certain parts of the property and construct new developments thereon, subject to certain conditions set out in the deed of emphyteusis.

Pursuant to a subsequent deed, PLAN Property Holdings transferred the temporary utile dominium of the property to another Group company, PLAN Property Holdings 2 Limited for the remainder of the emphyteutical concession. PLAN Property Holdings 2 Limited was previously wholly and directly owned by the Issuer which has now ceased to exist following an amalgamation with PLAN C&T Services in December 2024. As a result of the amalgamation, PLAN C&T Services acquired the assets and liabilities of PLAN Property Holdings 2 Limited and, accordingly, acquired the temporary emphyteutical title to the property.

Operation of the Porziuncola Care Home

The Porziuncola Care Home has been in operation since November 2023 and reached 99% occupancy by June 2025. The care home accommodates a total of 400 residents and comprises 10 different wards spanning six floors with a total of 200 twin bedrooms, each with an ensuite bathroom. The care home also comprises a common area, a fully equipped clinic, multiple nursing stations with backup treatment rooms, lobbies on each floor, a kitchen, a communal eating space, a TV area, a chapel and prayer room, a multipurpose crafts room, a library, a main laundry room, and a carpark. In addition to private gardens, the care home design accommodates various common areas where social events can be held.

The care home is located within a quiet area with unrestricted sea views which complements the Group's objective to depart from the institutional setting of care homes and thus provide residents with a “home away from home” experience.

The Porziuncola Care Home offers a wide range of additional services to residents including long term care services, respite services, rehabilitation services, and dementia and memory loss care services. Management adopts a symbiotic relationship in the Group's operation of both care homes in order to ensure that the individual needs of residents are continuously met, regardless of their selected Group care home. Management is of the view that a complementary approach in the Group's operation of both care homes is conducive to ensuring that residents of either home are cared for in a dedicated and enabling environment, which reflects the individual needs of residents.

The Porziuncola Care Home is managed by a multidisciplinary team of professionals involved in the day-to-day running of the care home. In addition to the team of qualified nurses and care providers, the home also employs several individuals, including approximately 250 full time equivalents.

AACCD Service Agreement

Given the success of the business model adopted for the operation of the Golden Care Home, management sought to replicate such model in the operation of the Porziuncola Care Home. In January 2024, PGC Care Home – having assumed the rights and obligations under the agreement from the original service provider, PLAN C&T Services – entered into a service agreement (as subsequently amended) with the AACCD for a fixed period of four years, subject to renewal of a further year, commencing on 22 December 2023 and ending on 31 December 2027. Pursuant to this agreement and subsequent amendments thereto, PGC Care Home shall make available, to the AACCD, a maximum of 400 long term care beds at the Porziuncola Care Home, with the possibility of increasing the number of beds, subject to availability and the mutual consent of the Older Persons Standards Authority and PGC Care Home.

As at the date of this Base Prospectus, 400 beds have been allocated to the Government of Malta, through the AACCD. The services agreement stipulates fixed rates payable to PGC Care Home, for three different categories of residents, ranging from low, medium, or high dependency residents.

During the term of this agreement, PGC Care Home shall make available a maximum of five beds (from the 400 long term care beds), to be utilised for respite or long-term care at the discretion of the AACCD. As at the date of this Base Prospectus, 395 beds are occupied by the AACCD, one bed is occupied by a private individual and four beds are occupied by non-paying individuals.

Discussions with a local bank are underway for the Group to obtain a loan of €10,000,000 to finance the development of the Qajjenza Care Home. On 8 January 2025, the Group, through its Subsidiary PLAN Development, entered into a promise of assignment agreement pursuant to which AGM Investments agreed to partially assign to PLAN Development its rights and obligations arising under the 2024 POSA (the “**2025 POAA**”). The assignment pertains to the divided portion of land having a superficial area of approximately 4,101.80 sqm which falls within a development zone i.e. the Qawra Site. The remaining divided portion is not subject to the 2025 POAA. The 2025 POAA shall remain valid and effective until 15 December 2025. The consideration for the acquisition and assignment is set at €17.4 million.

Furthermore, according to the 2025 POAA (and in addition to other resolute conditions stipulated in the 2024 POSA being satisfied), PLAN Development shall only be obligated to appear on the final assignment agreement and the final deed of sale if:

This was approved in August 2025.

The proposed development includes 188 residential units and 160 garages and parking spaces on basement parking levels. The development is expected to commence in 2025 and completed in 2028. The Group is seeking to fund the acquisition and part of the development of the Qawra Site through the Bond Issue, with the remainder to be funded from revenue generated by the Golden Care Home and the Porziuncola Care Home, as well as retained profits from the Group's other property development projects.

The total estimated cost of the construction and finishing of the development of the Qawra Site is expected to be in the region of €36 million, including costs of land acquisition but excluding finance costs. On the assumption that all the residential units, car spaces, and garages forming part of the development of the Qawra Site will be sold, the Directors expect the aggregate net revenue from the development of the Qawra Site to be in the region of €53 million. Further information on the development over the Qawra Site is included in the Qawra Valuation Report. A first ranking special hypothec, and a first ranking special privilege (as described in further detail in section 16.4.1 of this Base Prospectus), shall be constituted in favour of the Security Trustee (for the benefit of the Bondholders) over the Qawra Site.

The promise of sale agreement shall remain valid and effective until 3 March 2026.

In October 2024, a permit application with number PA/01378/25 was submitted to the Planning Authority for the demolition of the existing dwelling and excavation of the site. The proposed development includes two basement levels accommodating 55 garages, six ground floor maisonettes, 28 apartments across four floors (ground floor to third floor) and five overlying penthouses.

PLAN (Mosta). Furthermore, if the works are not completed within the validity period of the agreement due to reasons directly attributable to PLAN (Mosta), the vendors shall retain ownership of the site and any improvements made thereon.

Site clearance and excavation works were completed by the end of 2024, with construction works commencing in March 2025. The project is expected to be completed by the end of 2025.

9.1. ECONOMIC UPDATE¹

According to the Central Bank of Malta's August 2025 forecasts covering the period up to 2027, Malta's real GDP growth is set to moderate from 5.90% in 2024 to 3.90% in 2025. Growth is set to ease further in the following two years, reaching 3.30% in 2027. Over the projection horizon, domestic demand is expected to be the main driver of growth. The latter is expected to be led by private consumption, while investment should also continue to recover. Furthermore, net exports are projected to contribute positively to GDP growth, driven by trade in services.

Private consumption growth is set to moderate to 4.20% in 2025, partly reflecting slower growth in employment and a higher savings rate by households. Nevertheless, private consumption is set to remain relatively buoyant, as household disposable income will be supported by still favourable labour market conditions and the widening of the income tax bands. The latter adjustment will also contribute to some increase in the disposable income which is expected to raise the saving ratio in 2025, as higher income households with a lower average propensity to consume should save some of the tax relief. In subsequent years, the saving ratio is envisaged to decline marginally but remain relatively elevated at 12.7% by 2027.

Overall investment is projected to grow by 3.10% in 2025 before picking up to 3.70% in 2026. Investment should remain broadly unchanged in 2027, when government investment is projected to decline strongly. Private investment began to recover in 2024 and is expected to grow by 2.10% in 2025 and 3% and 3.20% in 2026 and 2027 respectively. Following strong growth in residential construction in 2024, expansion in such activity is expected to stand close to 1% in 2025 but be more muted until 2027 as investment outlays remain high from a historical perspective. Similarly, growth in non-dwelling private investment is expected to remain relatively contained during the projection horizon in view of the expected slowdown in economic activity. Government investment is forecast to increase in 2025 and 2026, mostly due to a pick-up in EU-funded investment related to the Recovery and Resilience Facility ("RRF"). Investment is then forecast to decline in 2027, as projects financed by the RRF are completed.

The labour market remains strong and demand for labour is envisaged to stay high. However, the increase in employment is expected to moderate over the projection horizon, driven by the projected easing in economic growth and an assumed recovery in productivity. Inflows of foreign workers are also expected to slow down due to policies aimed at limiting inward migration flows such as skills card requirements, the regulation of temping agencies, and the moratorium on food couriers and cab drivers. Also, in the beginning of 2025 the Government launched the Malta Labour Migration Policy with several proposed measures to regulate the entry of third country nationals coming into force from August 2025. As a result, employment growth is expected to moderate gradually from 5.30% in 2024 to 3% in 2025 before easing further to 2.40% and 2.30% by 2026 and 2027 respectively.

The unemployment rate is forecast to edge down to 2.80% in 2025 and 2.70% in 2026 and 2027. As such, the labour market is envisaged to remain tight, as the non-accelerating inflation rate of unemployment is projected at around 3.20%, so that the unemployment gap is forecast to be slightly negative in 2026 and 2027.² A persistently negative unemployment gap implies that labour market tightness will be a key factor driving the wage outlook. However, as inflation continues to moderate, together with a growing need for a small open economy as Malta to increase competitiveness, especially in the face of rising barriers to international trade, this should dampen upward pressure on wages. In this regard, wage growth is expected to moderate to 4.40% in 2025 from 6.30% in 2024 and is set to edge further down to 3.70% and 3.50% in 2026 and 2027 respectively.

Annual inflation rose in the first half of 2025, reaching 2.50% in June from 1.80% in December 2024. Going forward, inflation is projected to stand at 2.30% in 2025, reflecting mainly an envisaged decline in food and services inflation. Inflation is expected to ease further to 2.10% in 2026 and 2% in 2027, driven primarily by lower services inflation. Meanwhile, inflation excluding energy and food is projected to stand at 2.30% in 2025 and 1.90% in 2026 and 2027, mainly driven by an expected moderation in services inflation.

9.2. PROPERTY MARKET³

Data provided by the NSO shows that in 2024, 1,649 permits were granted for the construction of 8,716 new dwellings, representing a year-on-year increase of 7.42%. Most of the approved new dwellings comprised apartments, which totalled 6,177 units (2023: 5,755 units), representing 70.87% of the total number of approved residential units in 2024. The remaining approved new units were penthouses, which totalled 1,366 units (2023: 1,271 units), maisonettes – 783 units (2023: 714 units), terraced houses – 283 units (2023: 292 units), and other types of dwellings including villas, bungalows, town houses, houses of character, and farmhouses, which totalled 107 units (2023: 82 units). By region, the largest number of approved new dwellings was in the Northern Harbour district with 2,529 units (2023: 2,211 units), followed by the Northern district with 1,631 units (2023: 1,851 units) and the South Eastern district with 1,177 units (2023: 1,143 units). The Southern Harbour and Western districts accounted for 1,120 units (2023: 877 units) and 834 units (2023: 791 units) respectively, whilst Gozo and Comino registered 1,425 units (2023: 1,241 units).

In H1 2025, 1,023 permits were granted for the construction of 5,170 new dwellings, representing a year-on-year increase of 9.70% in the supply of residential units. Apartments remained the predominant residential type, accounting for 3,688 units, representing a 9.66% increase from 3,363 units in H1 2024. Terraced houses experienced a similar growth, increasing by 9.09% to 156 units from 143 units in the prior year's comparable period. Maisonettes and other type of dwellings surged by around 50% to 632 units (H1 2024: 423 units) and 72 units (H1 2024: 48 units) respectively, whilst the number of approved penthouses declined by 15.49% to 622 units (H1 2024: 736 units).

By region, the largest number of approved new dwellings in H1 2025 was in the Western district with 648 units (H1 2024: 427 units), followed by the South Eastern district with 741 units (H1 2024: 572 units) and the Southern Harbour district with 774 units (H1 2024: 626 units). All other districts registered marginal year-on-year declines.

In nominal terms, the CBM Property Prices Index (“PPI”) – which is based on the advertised sale prices of apartments, maisonettes, terraced houses, and other types of dwellings – increased by 5.62% in 2024 to 181.68 points. The sharpest year-on-year percentage increase took place in the prices of ‘other property’, comprising townhouses, houses of character, and villas, which advanced by 9.45%. The advertised prices of terraced houses and apartments increased by over 8%, whilst maisonettes saw their advertised prices increase by 7.49%.

In H1 2025, the CBM PPI rose further to 189.40 points, representing a year-on-year increase of 5.24%. Price momentum remained positive across all categories of dwellings. Other types of property registered the sharpest percentage growth, increasing by 6.81% year-on-year. Terraced houses and maisonettes followed, with annual increases of 3.62% and 2.53% respectively, whilst apartments recorded marginal year-on-year growth of 1.29%.

The NSO Residential Property Price Index (“RPPI”) – which is based on actual transactions involving apartments, maisonettes and terraced houses – registered an increase of 6.67% to 163.65 points in 2024. In aggregate, the prices of apartments and maisonettes, which represent the lion’s share of the market, rose by 6.46%, with apartment prices increasing by 6.50% whilst maisonette prices recording a year-on-year increase of 6.33%.

In H1 2025, the NSO RPPI rose further to 171.93 points, representing a year-on-year increase of 5.65%. In aggregate, the prices of apartments and maisonettes rose by 5.45%, with apartment prices increasing by 5.15% whilst maisonette prices recorded a year-on-year increase of 6.71%.

Meanwhile, in terms of transactions, throughout 2024 a total of 12,598 final deeds of sale relating to residential property were registered compared to 12,180 deeds in 2023 and 14,331 deeds in 2022. The total value of final deeds of sale increased by 8.02% in 2024 to a new record of €3.52 billion compared to €3.26 billion in 2023 and €3.30 billion in 2022. Furthermore, the average value per deed of sale increased to €279,362 compared to €267,504 in 2023 and €230,242 million in 2022.

During H1 2025, 6,394 final deeds of sale were registered, slightly higher than the 6,348 deeds recorded in the corresponding period in 2024. The total value of final deeds of sale rose to €1.84 billion compared to €1.73 billion in H1 2024, marking an increase of 6.61% on a year-on-year basis. This led to a 5.84% increase in the average value per deed, which climbed to €287,926 in H1 2025 from €272,038 a year earlier, reflecting continued resilience in transaction values despite a relatively stable volume of concluded deals.

9.3 DEMOGRAPHY AND LONG-TERM CARE⁴

Long-term care covers a broad range of services. It is usually defined as a set of services required by persons with a reduced degree of functional capacity (whether physical or cognitive) and who, as a consequence of this, are dependent for an extended period of time on help with their activities of daily living. These services are often provided in tandem with basic medical services such as nursing care, prevention, rehabilitation, or services of palliative care.

Long-term care provided as ‘in-kind’ refers to home care or institutional care. The former is delivered in the private home of the care recipient and is most appropriate for cases with lower levels of dependency, aiming to slow down the progression of dependency as recipients age. On the other hand, institutional care is delivered in a specialised institution in which the care recipient lives. It is most appropriate for cases with relatively high degrees of dependency with high care needs.

Projections prepared by the United Nations Population Division show that the age structure of the Maltese population is expected to continue changing dramatically in the years and decades ahead. The share of the population aged up to 29 years is projected to decrease from 28.93% in 2024 to 23.12% in 2050 and 21.85% in 2070. Similarly, the share of the population aged between 30 years and 69 years is projected to decrease from 56.52% in 2024 to 54.20% in 2050 and 43.21% in 2070. In contrast, the share of the population over 69 years is projected to increase from 14.55% in 2024 to 22.68% in 2050 and 34.94% in 2070.

From an economic perspective, the most important change in demography concerns the working-age population (aged 20-64 years), which reflects the share of the population that will bear the financial ‘burden’ of the elderly. From a share of 62.52% in 2024, this ratio is projected to fall to 56.20% by 2050, and to 46.49% by 2070.

The dynamics of the ageing process can also be analysed by examining changes in the relative share of the elderly population compared to the working-age population. These dependency ratios relate to the number of individuals that are likely to be dependent on the support of others for their daily living – youths and the elderly – to the number of those individuals who can provide such support. Key indicators of age dependency are the:

- *Old-age dependency ratio* – calculated for both: (i) persons aged 65 years and over relative to the number of individuals aged between 20 and 64 years; and (ii) for persons aged 75 years and over relative to the number of individuals aged between 20 years and 74 years.
- *Ageing of the aged ratio* – which measures the proportion of the ‘oldest old’ (people aged 80 years and over) within the elderly population (i.e. those aged 65 years and over).

The old-age dependency ratio for persons aged 65 years and over is projected to increase from 32.33% in 2024 to 54.52% in 2050 and 87.08% in 2070. The old-age dependency ratio for persons aged 75 years and over is projected to increase from 12.92% in 2024 to 22.31% in 2050 and 47.65% in 2070. Meanwhile, the ageing of the aged ratio is projected to increase from 23.48% in 2024 to 34.02% in 2050 and 47.75% in 2070.

Against this background, it is expected that both the quantity and the quality of demand for long-term care will continue to intensify, particularly for the services provided by community care centres and other state-run institutions, as well as facilities operated by the Church and the private sector. Indeed, expenditure on long-term care is forecast to rise significantly over the coming decades as spending is projected to increase from 1.2% of GDP in 2022 to 1.8% in 2050 and 3.4% in 2070. The vast majority of this expenditure is expected to remain concentrated on institutional care, which on its own is projected to absorb 3.1% of GDP by 2070, compared to just 1% in 2022.

This estimated increase in spending aligns with the anticipated growth in the number of dependent individuals requiring formal care. The number of people receiving institutional care is set to rise from 5,000 in 2022 to 10,000 by 2050 (representing 1.87% of the total population) and almost double again to 18,000 by 2070 (accounting for 3.75% of the population). At the same time, the demand for home care services is also projected to expand significantly. In 2022, around 21,000 dependent individuals received home care, but this figure is expected to reach 38,000 by 2050 and further increase to 63,000 by 2070. By that time, home care beneficiaries will represent 13.11% of the total population compared to around 4% in 2022.

These developments point towards a dual challenge for policymakers and service providers: firstly, to expand capacity and improve efficiency in institutional care settings, and secondly, to strengthen the infrastructure and workforce supporting home-based and community-oriented care. Investment in both areas will be critical to ensure that future demand is met in a sustainable and equitable manner, while also maintaining high standards of care and supporting the dignity and autonomy of an increasingly ageing population.

The *curriculum vitae* of Mr Fenech may be found in section 10.4 above.

Mr. Stephen Grech (Project Manager)

Mr. Grech graduated as an engineer from the University of Malta and commenced his career in the technical division of Elbros Ltd., one of the main leading multi-disciplinary building contractors on the island. In 1998 he was appointed as head of the precast concrete production facility, handling the design and prefabrication of prestressed beams and composite slabs.

In 2001, Mr. Grech moved to TBA Periti as a senior structural engineer, responsible for the design and site supervision of construction works related to multi storey steel and concrete frame structures. In 2004, Mr. Grech became one of the founding partners and director of IAS - Innovative Architectural Structures Limited (C 79087), which eventually developed as one of the leading multi-disciplinary architectural, structural engineering and project management firms in Malta. Mr. Grech had led the structural engineering and construction management team for several high-profile projects within IAS - Innovative Architectural Structures Limited with a varied portfolio of project type, scale, and construction methodology.

In 2016, Mr. Grech founded his own practice, working as a freelance structural engineer in order to focus his attention on the structural engineering discipline. He works in collaboration with a number of developers and architectural firms where he has completed the structural design of a vast number of apartment blocks, old people's homes, and high-profile hotels. Mr. Grech has also been involved in a number of infrastructural works including the Kappara bridge, acting as the structural consultant for the Authority for Transport in Malta, and is currently responsible for the structural elements of the Malta Airport junction civil works.

Mr. Grech's main field of expertise involves low to medium rise frame and loadbearing structures, using reinforced concrete, steel, and masonry construction. He shall be assisting the Group by overseeing the day-to-day requirements of the Group's property development projects.

10.7 POTENTIAL CONFLICTS OF INTEREST

Paul Attard is a director of the Issuer as well as the Guarantors. He is also a director of GAP Group Investments II and is the majority shareholder of the Issuer. Conflicts may arise between the potentially diverging interests of the Issuer and the Guarantors, particularly in connection with advances to be made by the Issuer to the Guarantors in undertaking existing or new projects. Keith Fenech is a director of PLAN (Qawra) and the chief financial controller (CFO) of the GAP Group as well as the chief financial controller (CFO) of the Group.

Other than as stated above, there are no other conflicts of interest or potential conflicts of interest between the duties of Mr. Attard in his capacity as director, and his private interests.

The Audit Committee of the Issuer has the task of ensuring that any potential conflicts of interest that may arise at any moment, pursuant to these different roles held by directors, are handled according to law. The presence of an Audit Committee has the task to ensure that any potential abuse is managed, controlled, and resolved in the best interests of the Issuer. Any member of the Audit Committee who has a direct or indirect interest in any contract, transaction or arrangement that is brought before the Audit Committee is prohibited from being present at, and from voting, at any meeting of the Audit Committee during which such contract, transaction or arrangement is being discussed. The presence of independent non-executive Directors on the Board of the Issuer aims to minimise the possibility of any abuse of control by its majority shareholder. Furthermore, in terms of the memorandum and articles of association of the Issuer, in the event that a director has a personal material interest, either directly or indirectly, in any contract or arrangement with the Issuer, such director is not entitled to vote on any decisions taken in connection therewith. This ensures that any director sitting on the boards of the Guarantor and the Issuer is precluded from using his vote on any decisions involving a contract or arrangement between the Guarantor and the Issuer.

10.8 BOARD PRACTICES

10.8.1 *Audit Committee*

The Audit Committee's primary objective is to assist the Board of Directors in fulfilling its oversight responsibilities over the financial reporting processes, financial policies, and internal control structure. The Audit Committee oversees the conduct of the internal and external audit and acts to facilitate communication between the Board, management, and the internal and external auditors. The external auditors are invited to attend the Audit Committee meetings. The Audit Committee reports directly to the Board.

The terms of reference of the Audit Committee include support to the Board in its responsibilities in dealing with issues of risk, control and governance, and associated assurance of the Issuer. The Board has set formal terms of establishment and the terms of reference of the Audit Committee which set out its composition, role and function, the parameters of its remit as well as the basis for the processes that it is required to comply with.

Briefly, the Audit Committee is expected to deal with and advise the Board of Directors on:

- its monitoring responsibility over the financial reporting processes, financial policies, and internal control structures;
- maintaining communications on such matters between the Board, management, and the external auditors; and
- preserving the Issuer's assets by assessing the Issuer's risk environment and determining how to deal with those risks.

In addition, the Audit Committee has the role and function of evaluating any proposed transaction to be entered into by the Issuer and a related party to ensure that the execution of any such transaction is at arm's length, on a commercial basis and ultimately in the best interests of the Issuer.

Furthermore, the Audit Committee has the role of assessing any potential conflicts of interest between the duties of the Directors and their respective private interests or duties unrelated to the Issuer.

All Directors sitting on the Audit Committee are non-executive Directors. Alfred Attard, William Wait and Edward Grech are the independent non-executive Directors sitting on the Audit Committee. Audit Committee members are appointed for a period of three years, unless terminated earlier by the Board. All the independent non-executive Directors are competent in accounting and, or auditing matters in terms of the Capital Markets Rules. The Chairman of the Audit Committee, appointed by the Board, is entrusted with reporting to the Board on the workings and findings of the Audit Committee. William Wait occupies the post of Chairman of the Audit Committee.

Pursuant to its terms of reference, the Audit Committee's remit covers the Issuer and the Guarantors.

10.8.2 *Compliance with Corporate Governance*

In accordance with the terms of the Capital Markets Rules, the Issuer should endeavour to adopt the principles of the Code of Principles of Good Corporate Governance contained in Appendix 5.1 to Chapter 5 of the Capital Markets Rules (the "**Code**"). The Issuer declares its full support of the Code and undertakes to fully comply with the Code to the extent that this is considered complementary to the size, nature, and operations of the Issuer.

The Issuer supports the Code and is confident that the application thereof shall result in positive effects accruing to the Issuer.

Going forward, in view of the reporting structure adopted by the Code, the Issuer shall, on an annual basis in its annual report, explain the level of the Issuer's compliance with the principles of the Code, in line with the "comply or explain" philosophy of the Code, explaining the reasons for non-compliance, if any.

As at the date of this Base Prospectus, the Board considers the Issuer to be in compliance with the Code save for the following exceptions:

Principle 7 (Evaluation of the Board's Performance)

The Board of Directors does not consider it necessary to appoint a committee to carry out a performance evaluation of its role, as the Board of Directors' performance is evaluated on an ongoing basis by, and is subject to the constant scrutiny of the Board of Directors itself (half of which is composed of independent non-executive directors), the Issuer's shareholders, the market and all of the rules and regulations to which the Issuer is subject as a company with its securities listed on a regulated market.

Principle 8 (Committees)

The Board of Directors considers that the size and operations of the Issuer do not warrant the setting up of remuneration and nomination committees. In particular, the Issuer does not believe it is necessary to establish a nomination committee as appointments to the Board of Directors are determined by the shareholders of the Issuer in accordance with the appointment process set out in the Issuer's Memorandum and Articles of Association. The Issuer considers that the members of the Board possess the level of skill, knowledge and experience expected in terms of the Code.

Principle 9 (Relations with Shareholders and with the Market)

Currently there is no established mechanism disclosed in the Memorandum and Articles of Association of the Issuer to trigger arbitration in the case of conflict between the minority shareholders and the controlling shareholders. In any such cases, should a conflict arise, the matter will be dealt with in the Board of Directors' meetings and through the open channel of communication between the Issuer and the minority shareholders via the office of the company secretary.

Total revenues surged by 71.54% in **FY2023**, from €7.66 in FY2022 to €13.13 million, amid a substantial increase in the level of income derived from the sale of property which amounted to €7.54 million (or 57.39% of total Group revenues). The latter was boosted by the contracted sales appertaining to The Oaks which amounted to €6.69 million, whilst income from Breezy Village and Fairwinds stood at €0.62 million and €0.23 million respectively. Meanwhile, income from the Group's elderly care homes amounted to €5.52 million – representing a year-on-year increase of 4.33% – and was mostly generated by Golden Care since Porziuncola only welcomed its first residents in November 2023.

EBITDA recorded by the Group amounted to €4.28 million, of which €2.85 million (or 66.65%) derived from the sale of property whilst the remaining €1.43 million (or 33.35%) emanated from the operation of the elderly care homes (FY2022: EBITDA €1.76 million).

During FY2023, the Group's share of results from its shareholding in Gap Group amounted to €3.26 million. Since no such income was registered in FY2022, the profit for the year increased markedly from €0.90 million in FY2022 to €5.99 million.

Within other comprehensive income, the Issuer recorded a net gain of €4.47 million in the fair value of the temporary emphyteutical concession on Porziuncola which took place in the second half of the year following completion of development of the care home. As a result, total comprehensive income for the year amounted to €10.46 million.

In **FY2024**, the Group registered total revenue of €12.91 million, representing a marginal contraction of 1.72% when compared to the prior year. This decline was primarily attributable to the lack of real estate stock available for sale, which led income from this segment to fall sharply to just €0.87 million. In contrast, revenue from elderly care homes more than doubled to €11.98 million, accounting for 92.81% of total revenue. This reflects the first full-year contribution from Porziuncola – albeit still operating well below full occupancy – compared to just two months of operations in FY2023.

Net operating expenses increased by 10.86% to €9.82 million, supporting the growth in the care home business. As a result, EBITDA contracted by 27.78% to €3.09 million. The EBITDA contribution from real estate development dropped to €0.48 million, while elderly care homes increased materially to €2.61 million.

Depreciation charges rose markedly to €1.88 million in FY2024, up from €0.53 million in the previous year, driven by the investment in long-term operational assets. Consequently, operating profit fell significantly from €3.75 million in FY2023 to €1.21 million in FY2024.

The share of results of the associate company increased notably to €4.86 million, thus absorbing much of the contraction in operating profit. On the other hand, net finance costs increased substantially to €1.25 million (FY2023: €0.85 million).

Profit before tax declined by 21.66% to €4.83 million. After accounting for a positive tax credit of €0.10 million, the Group reported a net profit for the year of €4.93 million. Total comprehensive income stood at €9.38 million after accounting for a net gain of €4.44 million in the fair value of Golden Care.

PLAN Group p.l.c.**Statement of Cash Flows****for the financial year ending 31 December**

	2022	2023	2024
	€'000	€'000	€'000
Net cash from / (used in) operating activities	(2,799)	(5,311)	(2,869)

Net cash from / (used in) financing activities	2,977	18,878	3,822

Cash and cash equivalents at beginning of year	1,598	1,093	1,464
Cash and cash equivalents at end of year	1,093	1,464	758

In **FY2023**, the Issuer recorded a positive net movement in cash and cash equivalents of €0.37 million (FY2022: adverse net movement of €0.51 million). Although the Group used a total of €18.51 million for its operating (€5.31 million) and investing (€13.20 million) activities, with the latter mostly being related to the completion of Porziuncola and the acquisition of the Biržebbuga Site, during the year Plan Group successfully issued the 2023 Bonds and took on additional bank borrowings. Overall, the Issuer ended the 2023 financial year with a cash balance of €1.46 million compared to €1.09 million as at 31 December 2022.

In **FY2024**, the Group consumed €2.87 million in net cash for its operating activities. Despite the year-on-year improvement, operating cash flows remained negative mostly due to adverse movements in working capital, which amounted to €4.85 million, as well as higher net finance costs.

Cash used in investing activities amounted to €1.66 million reflecting capital expenditure on property, plant and equipment (“PPE” – €1.66 million). As a result, free cash flow remained negative at €4.53 million, albeit much lower than the negative free cash flow of €18.51 million registered in FY2023.

In contrast, the Group generated €3.82 million in net cash from financing activities, primarily through new bank borrowings. This funding was partly sufficient to offset the free cash flow shortfall, resulting in an aggregate negative net movement in cash and cash equivalents of €0.71 million for the year. Consequently, cash and cash equivalents decreased to €0.76 million as at 31 December 2024.

During **FY2023**, the Group increased its total assets by €46.12 million to €85.22 million (FY2022: €39.10 million), mostly due to the higher levels of PPE (+€16.92 million to €32.79 million), inventory (+€8.27 million to €18.31 million), right-of-use asset (+€6.76 million to €13.85 million), and trade and other receivables (+€3.77 million to €7.15 million). Throughout the year, Plan Group also acquired the one-third ownership of Gap Group Investments (II) Limited which is the parent company of Gap Group.

The Group financed the increase in its asset base mainly through the strengthening of its equity base (via issued share capital) which stood at €32.34 million as at 31 December 2023, and by expanding its obligations principally through an increase in total debt to just under €41 million.

The Group's financial position strengthened further in **FY2024**, with total assets rising by 14.20% to €97.32 million. This growth was mainly driven by increases across non-current assets, particularly in PPE which expanded by €7.36 million to €40.16 million, and in the investment in associate, which increased by €4.86 million to €16.04 million (31 December 2023: €11.18 million). Meanwhile, current assets remained broadly stable at €26.89 million, as the slight increase in trade and other receivables was offset by a decline in inventory and cash and cash equivalents.

On the funding side, total equity increased by €9.38 million to €41.72 million, mainly on account of the gain recorded in the other comprehensive income related to revaluation reserves, and a €4.98 million rise in retained earnings to €8.45 million.

Total liabilities increased by only €2.72 million to €55.61 million (31 December 2023: €52.88 million) as the €3.91 million rise in bank borrowings to €25.62 million was partly offset by a €1.41 million reduction in trade and other payables to €8.08 million.

- (21) subject to all other terms and conditions set out in this Base Prospectus, the Issuer reserves the right to reject, in whole or in part, or to scale down, any application for the Secured Bonds, for any reason whatsoever, including but not limited to multiple or suspected multiple Applications or any Application which in the opinion of the Issuer is not properly completed in all respects in accordance with the instructions or is not accompanied by the required documents. Both original and electronic copies of the Application submitted to the Issuer by Authorised Financial Intermediaries will be accepted;
- (22) no person receiving a copy of the Base Prospectus, the applicable Final Terms, or an Application in any territory other than Malta may treat the same as constituting an invitation or offer to such person, nor should such person in any event use such Application, unless, in the relevant territory, such an invitation or offer could lawfully be made to such person or such Application could lawfully be used without contravention of any registration or other legal requirements; and
- (23) subscription for Secured Bonds by persons resident in, or who are citizens of, or who are domiciled in, or who have a registered address in, a jurisdiction other than Malta, may be affected by the law of the relevant jurisdiction. It is the responsibility of any person (including, without limitation, nominees, custodians, depositaries and trustees) outside Malta wishing to participate in the Bond Issue, to satisfy himself/herself/itself as to full observance of the applicable laws of any relevant jurisdiction, including, but not limited to, obtaining any requisite governmental or other consents, observing any other requisite formalities and paying any transfer or other taxes (of any nature whatsoever) due in such territories. The Issuer shall not accept any responsibility for the non-compliance by any person of any applicable laws or regulations of foreign jurisdictions.

16.3 REASONS FOR THE OFFER, ESTIMATED NET PROCEEDS AND ESTIMATED TOTAL EXPENSES

The reasons for the offer, the estimated net proceeds, the estimated total expenses shall be specified in the applicable Final Terms. The following reasons for the offer of each Tranche are eligible for inclusion in the Final Terms:

- to finance the acquisition of the Qawra Site;
- to part finance the construction, development and finishing of the Qawra Site and the Birzebbuga Site – Portion B; and
- corporate funding purposes.

No other reasons for the offer may be specified in the Final Terms.

The net bond proceeds shall be on-lent by the Issuer to PLAN BBG (the Subsidiary which has been earmarked by the Group to develop the Birżebbuġa Site – Portion B), and to PLAN (Qawra) (the Subsidiary which has been earmarked by the Group to acquire and develop the Qawra Site), for any of the purposes set out above (as applicable). The obligation of the Issuer to advance said funds to the Guarantors, shall be conditional upon, *inter alia*, the issue and allotment of the Secured Bonds, which in turn is conditional upon the Secured Bonds being admitted to the Official List.

Following the Bond Issue, all proceeds shall be held by the Security Trustee. The Security Trustee shall, save for the payment of expenses related to the Bond Issue, retain the net bond proceeds until the Secured Bonds are admitted to the Official List and the Collateral is constituted in its favour in accordance with this Base Prospectus and, or the Final Terms, following which, the Security Trustee shall release the net bond proceeds in the amounts, and in accordance with, the provisions of the Security Trust Deed. Where the bond proceeds are to be used to pay all or part of the development and/or completion costs of the Qawra Site or the Birżebbuġa Site – Portion B, the Security Trustee shall not release any bond proceeds unless it is in receipt of an architect's written confirmation that the value of the applicable Qawra Site or the Birżebbuġa Site – Portion B has increased by an amount at least equivalent to the amount of bond proceeds requested for release by Plan (Qawra) or Plan BBG (as applicable).

16.4 THE SECURITY TRUSTEE, COLLATERAL, AND GUARANTEES

16.4.1 The Collateral

The Secured Bonds shall be secured by, and Bondholders shall have the benefit of the following security interests (the “Collateral”) in favour of the Security Trustee for the benefit of Bondholders (irrespective of the tranche of Bonds held):

- (i) a second-ranking general hypothec granted by the Issuer over its assets present and future for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon;
- (ii) a second-ranking general hypothec granted by PLAN BBG over its assets present and future for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon, excluding Birżebbuġa Site – Portion A;
- (iii) a second-ranking special hypothec granted by PLAN BBG for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon over Birżebbuġa Site – Portion B (and any developments and constructions thereon);
- (iv) a first-ranking general hypothec granted by PLAN (Qawra) over its assets present and future for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon;
- (v) a first-ranking special hypothec granted by PLAN (Qawra) for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon over the Qawra Site (and any developments and constructions thereon);
- (vi) a first-ranking special privilege granted by PLAN (Qawra) in terms of article 2010(1)(c) of the Civil Code over the Qawra Site securing an amount equivalent to the funds disbursed by the Security Trustee to the vendor(s) for the purposes of funding the acquisition price of the Qawra Site; and
- (vii) the Pledge of Insurances Agreements.

The second-ranking general hypothecs and special hypothec referred to under (i) to (iii) above will become first-ranking general hypothecs and a first-ranking special hypothec once the 2023 Secured Bonds have been fully repaid on 23 November 2028.

The Collateral shall be constituted in favour of the Security Trustee for the benefit of all Bondholders from time to time registered in the register of Bondholders maintained by the CSD.

The Issuer and the Guarantors have entered into a Security Trust Deed with the Security Trustee which consists of the covenants of the Issuer to pay the principal amount under the Secured Bonds on the Redemption Date or an Early Redemption Date and interest thereon and the covenants of the Guarantors to pay principal and interest on the Secured Bonds in the event of a claim under the Guarantees in accordance with their terms. The Security Trust Deed also regulates the constitution of the Collateral and the Guarantees in favour of the Security Trustee and the maintenance of the Reserve Account.

The Guarantees and the Collateral shall be vested in the Security Trustee for the benefit of the Bondholders in proportion to their respective holding of Secured Bonds. The Security Trustee's role includes holding of the Collateral for the benefit of the Bondholders and the enforcement of the Collateral upon the happening of certain events. The Security Trustee shall have no payment obligations to Bondholders under the Secured Bonds which remain exclusively the obligations of the Issuer (or, in the case of default by the Issuer, of the Guarantors), save to the extent that the Security Trustee shall apply any amounts held to the credit of the Reserve Account, held by it towards the redemption of the Secured Bonds on the Redemption Date.

16.4.2 Constitution of the Collateral

The Collateral shall be constituted in favour of the Security Trustee, for the benefit of the Bondholders, by the Issuer and the Guarantors (as applicable) in the following manner:

1. upon the entry into of deed of acquisition pertaining to the acquisition of the Qawra Site (which shall be funded by the issuance of the first Tranche of Secured Bonds), the Security Trustee shall reserve in its favour a special privilege over the Qawra Site securing an amount equivalent to the funds disbursed by the Security Trustee to the vendor(s) for the purposes of funding the acquisition price of the Qawra Site. In terms of article 2010(c) of the Civil Code, the Security Trustee (as lender) is entitled to a special privilege by virtue of it having advanced the money for the payment of the purchase price to the vendor(s) of the Qawra Site;
2. simultaneously with the constitution of the security interests referred to above, the following additional security interests shall be constituted in favour of the Security Trustee (for the benefit of the Bondholders):
 - a) a second-ranking general hypothec granted by the Issuer over its assets present and future for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon;
 - b) a second-ranking general hypothec granted by PLAN BBG over its assets present and future for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon, excluding Birżebbuġa Site – Portion A;

- c) a second-ranking special hypothec granted by PLAN BBG for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon over Birżebbuġa Site – Portion B (and any developments and constructions thereon);
 - d) a first-ranking general hypothec granted by PLAN (Qawra) over its assets present and future for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon; and
 - e) a first-ranking special hypothec granted by PLAN (Qawra) for the full nominal value of the Secured Bonds (a maximum of €40 million) and interest thereon over the Qawra Site (and any developments and constructions thereon).
3. Prior to commencing construction of the Qawra Site, PLAN (Qawra) shall enter into the Pledge of Insurances Agreement to be entered into by and between the Issuer, PLAN (Qawra) and the Security Trustee for the purpose of constituting a pledge on insurance policy proceeds as security for the full nominal value of the Secured Bonds and interest thereon;
 4. Prior to commencing construction of the Birżebbuġa Site – Portion B, PLAN BBG shall constitute the Pledge of Insurances Agreements as security for (i) the full nominal value of the 2023 Bonds and interest thereon; and (ii) the full nominal value of the Secured Bonds and interest thereon, with the insurance proceeds to be applied by the Security Trustee in the following order of priority:
 - i. first to the bondholders of the 2023 Bond Issue; and
 - ii. second, to the Bondholders.

16.4.3 The Guarantees

The Secured Bonds shall be guaranteed in respect of both the principal amount and interest due thereon by the Guarantors on a joint and several basis. Accordingly, the Security Trustee, for the benefit of the Bondholders, shall be entitled to request the Guarantors to pay both the principal amount and interest due thereon under the Secured Bonds on first demand (subject to the terms of the Guarantees) if the Issuer fails to meet any amount when due under the Secured Bonds.

The joint and several Guarantees also entitle the Security Trustee to take action against the Guarantors without having to first take action against the Issuer.

The Guarantees shall constitute direct and unconditional obligations of the Guarantors, and the Guarantors' obligations under the Guarantees shall rank *pari passu* with all their other unsecured and unsubordinated obligations. Copies of the Guarantees are included in Annex I to this Base Prospectus.

16.4.4 Appointment of the Security Trustee pursuant to the Security Trust Deed

The Issuer and the Guarantors have entered into the Security Trust Deed pursuant to which the Security Trustee has been appointed to, *inter alia*, hold the Collateral and the Guarantees for the benefit of Bondholders. The Security Trust Deed sets out, *inter alia*: the covenants of the Issuer to pay the principal amount under the Secured Bonds and interest thereon on the Redemption Date or an Early Redemption Date; the rights and benefits enjoyed by the Security Trustee (for the benefit of Bondholders) under the Security Trust Deed; and the provision of the Collateral and the Guarantees, in favour of the Security Trustee. The Security Trust Deed also regulates the powers of the Security Trustee during the term of the Bond Issue and *vis-à-vis* Bondholders' Meetings.

The Security Trustee's role includes the holding of the Collateral for the benefit of the Bondholders and the enforcement of the Collateral upon the happening of an Event of Default, in accordance with the terms and conditions of the Security Trust Deed, and the Base Prospectus. The Security Trust Deed empowers the Security Trustee to sell the Hypothecated Property (in full or in part) should the Issuer default under the Secured Bonds.

The terms and conditions of the Trust Deed shall be binding on each Bondholder as if it had been a party thereto and as if the Trust Deed contained covenants on the part of each Bondholder to observe and be bound by all the provisions thereof.

The Security Trustee shall have no payment obligations to Bondholders under the Secured Bonds, such obligations remaining exclusively the obligations of the Issuer.

16.4.5 Release of Collateral and the Reserve Account

All sales of residential units, garages and car spaces forming part of the development of the Hypothecated Property are expected to be executed on the basis that units are sold free and unencumbered, and accordingly released of all hypothecary rights and privileges encumbering those units, garages and car spaces. For this purpose, the Security Trustee is authorised and empowered, pursuant to the Security Trust Deed, to release individual units, garages and car spaces of the Hypothecated Property from security interests encumbering such unit, garage and car space upon receipt by it from the Issuer and, or PLAN BBG or from a prospective purchaser of a fixed portion of the purchase price of each unit, garage and car space, as better described below.

The Security Trustee and the Issuer have agreed on a list of projected prices for each unit, garage and car space sold in terms of the development of the Birżebbuġa Site – Portion B and the Qawra Site (the "Projected Sales Price/s"). The Projected Sales Prices reflect the opinion of the Directors as at the date of the issue of the Final Terms.

The receipt of funds to be held by the Security Trustee for the purpose of the Reserve Account shall be as follows:

The development of the Birżebbuġa Site – Portion B

Until the security trustee of the 2023 Secured Bonds has received €12 million in its reserve account, the Security Trustee shall not receive any percentage of the Projected Sales Price for any unit, garage or car space of the Birżebbuġa Site – Portion B that is sold. During this period, the Security Trustee shall appear on each deed of sale and waive all hypothecary rights over the development of the Birżebbuġa Site – Portion B without receiving any proceeds to be credited to the Reserve Account. Upon the receipt of €12 million in the reserve account maintained by the security trustee of the 2023 Secured

Bonds, the Security Trustee shall only be bound to release the Collateral registered in its favour over a particular residential unit, garage or car space over the Birżebbuġa Site – Portion B upon the receipt of the following percentages:

- an amount equal to 40% of the Projected Sales Price of each unit, garage, or car space sold shall be allocated, up until a maximum cumulative total of €15 million in sales proceeds (net of commission) from the Qawra Site and the Birżebbuġa Site – Portion B;
- an amount equal to 60% of the Projected Sales Price of each unit, garage, or car space sold shall be allocated, up to a maximum cumulative total of €40 million in sales proceeds (net of commission) from the Qawra Site and the Birżebbuġa Site – Portion B; and
- an amount equal to 70% of the Projected Sales Price of each unit, garage, or car space sold shall be allocated, up to a maximum cumulative total of €31.4 million in sales proceeds (net of commission) from the Qawra Site and the Birżebbuġa Site – Portion B.

The security trustee of the 2023 Bond Issue holds a first-ranking special hypothec over the Birżebbuġa Site – both Portion A and Portion B. In view of this special hypothec, the security trustee of the 2023 Bond Issue and the Security Trustee, shall jointly appear on the deeds of sale concerning the development of Birżebbuġa Site – Portion B and receive the relevant funds to be apportioned to the appropriate reserve accounts maintained by the said trustees in the manner set out in this Base Prospectus.

The development of the Qawra Site

The Security Trustee shall only be bound to release the Collateral registered in its favour over a particular residential unit or garage over the Qawra Site upon the receipt of the following percentages:

- an amount equal to 40% of the Projected Sales Price of each unit, garage, or car space sold shall be allocated, up to a maximum cumulative total of €15 million in sales proceeds (net of commission) from the Qawra Site and the Birżebbuġa Site – Portion B;
- an amount equal to 60% of the Projected Sales Price of each unit, garage, or car space sold shall be allocated, up to a maximum cumulative total of €40 million received in sales proceeds (net of commission) from the Qawra Site and the Birżebbuġa Site – Portion B; and
- an amount equal to 70% of the Projected Sales Price of each unit, garage, or car space sold shall be allocated, up to a maximum cumulative total of €31.4 million received in sales proceeds (net of commission) from the Qawra Site and the Birżebbuġa Site – Portion B.

The above procedure is intended to ensure that the Collateral created for the interest of Bondholders is only reduced against a cash payment made by the Issuer to the credit of the Reserve Account to be held by the Security Trustee for the benefit of Bondholders.

Maintenance of the Reserve Account

The funds so received by the Security Trustee shall be held by it under trust in a segregated bank account with a licensed credit institution in Malta for the benefit of the Bondholders and shall be so held with a view to meeting the redemption of the Secured Bonds on the Redemption Date or the Early Redemption Date (as applicable) or otherwise for the Issuer to re-purchase Secured Bonds (irrespective of their Tranche) in the market for cancellation or otherwise invested in accordance with the terms and conditions of the Security Trust Deed.

In the absence of unforeseen circumstances and subject to there being no material adverse changes in circumstances, the Directors are of the view that the percentages of the Projected Sales Price of units, garages and car spaces forming part of the Hypothecated Property allocated to the Security Trustee from available cash flows that will be credited to the Reserve Account, will be sufficient to cover the redemption of the Secured Bonds on the Redemption Date or the Early Redemption Date (as applicable). The Security Trustee is empowered to amend the percentages of the Projected Sales Prices which are to be received.

16.4.6 Nature and ranking of the Collateral

16.4.6.1 Hypothecary and privileged debts

A hypothec constituted in accordance with the Civil Code may be general or special: it is general when it affects all the property present and future of the obligor; it is special when it affects a particular immovable. A special hypothec continues to attach to any immovables charged therewith notwithstanding the transfer of the said immovable property to a third party. A general hypothec attaches to the property affected thereby only so long as such property remains in the patrimony of the obligor. A special privilege over an immovable continues to attach to such immovables notwithstanding the transfer of the said immovable property and ranks before a special hypothec or a general hypothec.

Hypothecary debts are paid according to the order of registration in the Public Registry.

The Issuer and PLAN BBG have each constituted a second-ranking general hypothec, in favour of the Security Trustee, over their assets present and future for the full nominal value of the Second Bonds and interest thereon. PLAN BBG has also constituted a second-ranking special hypothec, in favour of the Security Trustee, for the full nominal value of the Secured Bonds and interest thereon over the Birżebbuġa Site – Portion B (and any developments and constructions thereon).

Accordingly, should the Security Trustee declare that an Event of Default has occurred which is continuing, the Security Trustee, for the benefit of Bondholders, shall, by virtue of the general hypothecs, be paid out of the assets of the Issuer and PLAN BBG and, by virtue of the special hypothec, be paid out of the Birżebbuġa Site – Portion B (and any developments and constructions thereon) in priority to other creditors, except the security trustee of the 2023 Bond Issue (which has been granted, for the benefit of the holders of the 2023 Secured Bonds, *inter alia*, a first-ranking general hypothec over the assets of the Issuer and PLAN BBG, and a first-ranking special hypothec over the Birżebbuġa Site), and privileged creditors.

During the course of construction and development of the Birżebbuġa Site, situations may arise whereby the contractors or suppliers may become entitled by law to register a special privilege over the Birżebbuġa Site, thereby obtaining a priority in ranking over the Security Trustee. In this respect, pursuant to the issue of the 2023 Secured Bonds, PLAN BBG undertook to ensure that any contractors engaged for the development of the Birżebbuġa Site shall waive their rights to register a special privilege over the said site to secure amounts due to them for works carried out. Whilst this is intended to minimise the possibility that any real rights are created over the aforementioned site that would have the effect of diminishing the value of the Security Interests registered in favour of the Security Trustee, there can be no guarantee that a sub-contractor conducting works on one or more of the aforementioned site may constitute a special privilege according to law.

16.4.6.2 Pledge on Insurance Policies

In terms of the Security Trust Deed, PLAN BBG and PLAN (Qawra) shall enter into the Pledge of Insurances Agreements. A pledge creates a right of preference in favour of the collateral holder to be paid out of the asset so secured (the insurance policy) in priority to other creditors. In terms of the Trust Deed, the Issuer and PLAN BBG and PLAN (Qawra) shall enter into the Pledge of Insurance Agreements. A pledge creates a right of preference in favour of the collateral holder to be paid out of the asset so secured (the insurance policy) in priority to other creditors. The insurance policy to be pledged shall constitute a contractor's all risk insurance. Following the completion of the Hotel, an insurance policy securing the replacement value of the development over the Birzebbuga Site - Portion B and/or the development over the Qawra Site shall be pledged in favour of the Security Trustee.

16.4.7 Status and ranking of the Secured Bonds

The Secured Bonds (their repayment and the payment of Interest thereon) will constitute direct, unconditional, secured and unsubordinated obligations of the Issuer, which will at all times rank *pari passu* without any preference among themselves and save for any prior ranking security arising by operation of the law, with priority over all other present and future obligations of the Issuer. As regards the Guarantors, the Secured Bonds shall at all times rank *pari passu*, without any priority or preference among themselves and save for any prior ranking security arising by operation of the law, with priority over all other present and future obligations of the Guarantors.

16.4.8 Additional indebtedness and encumbrances

For as long as any principal or interest under the Secured Bonds or any indebtedness under the Secured Bonds remains outstanding, the Issuer and the Guarantors may not create or permit to subsist any claim, charge, lien, encumbrance, hypothec, privilege or security interest other than the Collateral or security interest arising by law, upon the whole or any part of its present or future assets or revenues to secure any Financial Indebtedness (as defined below) of the Issuer. Provided that the Issuer may create Financial Indebtedness secured over assets of the Issuer but not with seniority over the Collateral, provided that the Security Trustee grants its consent.

For the purposes of this section 16.4.8, the term “**Financial Indebtedness**” means any indebtedness in respect of (a) monies borrowed; (b) any debenture, bond, note, loan stock or other security; (c) any acceptance credit; (d) the acquisition cost of any asset to the extent payable before or after the time of acquisition or possession by the party liable where the advance or deferred payment is arranged primarily as a method of raising finance or financing the acquisition of that asset; (e) leases entered into primarily as a method of raising finance or financing the acquisition of the asset leased; (f) amounts raised under any other transaction having the commercial effect of borrowing or raising of money; and (g) any guarantee, indemnity or similar assurance against financial loss of any person.

16.5 EVENTS OF DEFAULT

Pursuant to the Security Trust Deed, the Security Trustee may in its absolute and uncontrolled discretion, and shall upon the request in writing of not less than seventy five per cent (75%) in present at the meeting at the time when the vote is being taken, by notice in writing to the Issuer declare the Secured Bonds to have become immediately due and repayable at their principal amount together with accrued interest, upon the happening of any of the following events (“**Events of Default**”):

- (i) the Issuer fails to effect the payment of interest under the Secured Bonds (irrespective of the Tranche) on an Interest Payment Date and such failure continues for a period of 60 days after written notice thereof has been given by the Security Trustee to the Issuer;
- (ii) the Issuer fails to pay the principal amount on any Secured Bond (irrespective of the Tranche) on the date fixed for its redemption; and such failure continues for a period of 60 days after written notice thereof has been given by the Security Trustee to the Issuer;
- (iii) the Issuer and, or the Guarantor/s fails to duly perform or otherwise breaches any other material obligation contained in the Base Prospectus or the Trust Deed and such failure continues for a period of 60 days after written notice thereof has been given to the Issuer / Guarantor/s by the Security Trustee;
- (iv) the Collateral is not constituted and perfected in accordance with the ranking set out in this Base Prospectus and the Security Trust Deed;
- (v) the Collateral and, or the Guarantees are not enforceable against the Issuer and, or the Guarantors (as applicable);
- (vi) in terms of article 214(5) of the Act, a court order or other judicial process is levied or enforced upon or sued out against any part of the property of the Issuer and, or the Guarantor/s and is not paid out, withdrawn, or discharged within one month;
- (vii) the Issuer or the Guarantor/s stops or suspends payments (whether of principal or interest) with respect to all or any class of its debts or announces an intention to do so or ceases or threatens to cease to carry on its business or a substantial part of its business;
- (viii) the Issuer or the Guarantor/s is unable, or admits in writing of its inability, to pay its debts within the meaning of article 214(5) of the Act, or any statutory modification or re-enactment thereof;
- (ix) a judicial or provisional administrator is appointed upon the whole or any part of the property of the Issuer and, or the Guarantor/s and such appointment is certified by the Security Trustee to be prejudicial, in its opinion, to the Bondholders;
- (x) an order is made, or an effective resolution is passed for winding up of the Issuer and, or the Guarantor/s, except for the purpose of a reconstruction, amalgamation or division, the terms of which have been approved in writing by the Security Trustee;
- (xi) the Issuer and, or the Guarantor/s substantially change the object or nature of its/their business as currently carried on;
- (xii) the Issuer and, or the Guarantor/s commit a breach of any of the covenants or provisions contained in the Security Trust Deed and on their part to be observed and performed and the said breach still subsists for 60 days after having been notified by the Security Trustee (other than any covenant for the payment of interests or principal monies owing in respect of the Secured Bonds);
- (xiii) the security constituted by any hypothec, pledge, or charge upon the whole or any part of the undertaking or assets of the Issuer and, or the Guarantor/s shall become enforceable, and steps are taken to enforce the same and the taking of such steps shall be certified in writing by the Security Trustee to be in its opinion prejudicial to the Bondholders;

- (xiv) any representation or warranty made or deemed to be made or repeated by or in respect of the Issuer and, or the Guarantor/s is or proves to have been incorrect in any material respect in the sole opinion of the Security Trustee;
- (xv) any material indebtedness of the Issuer and, or the Guarantor/s is not paid when properly due or becomes properly due and payable or any creditor of the Issuer and, or the Guarantor/s (as the case may be) becomes entitled to declare any such material indebtedness properly due and payable prior to the date when it would otherwise have become properly due or any guarantee or indemnity of the Issuer and, or the Guarantor/s in respect of indebtedness is not honoured when properly due and called upon; PROVIDED THAT for the purposes of this provision, material indebtedness shall mean an amount exceeding one million Euro (€1,000,000);
- (xvi) any consent, permit, authorisation, licence or approval of, or registration with, or declaration to governmental, statutory or public bodies, or authorities or courts, required in connection with the development of the Secured Property, or required by the Issuer and, or Guarantor/s for the performance of its obligations under this Base Prospectus or under the Security Trust Deed and, or the Guarantees (as applicable), is substantially modified in the sole opinion of the Security Trustee, or is not granted, or is revoked, or terminated, or expires and is not renewed, or otherwise ceases to be in full force and effect;
- (xvii) it becomes unlawful at any time for the Issuer and, or the Guarantor/s to perform all or any of its obligations under the Base Prospectus, or under the Security Trust Deed and, or the Guarantees (as applicable); or
- (xviii) all, or in the sole opinion of the Security Trustee, a material part, of the undertakings, assets, rights, or revenues of or shares or other ownership interests in the Issuer and, or the Guarantor/s are seized, nationalised, expropriated or compulsorily acquired by or under the authority of any government.

In the event that the value of the development over the Qawra Site, as determined by the Qawra Valuation Report, or the development over the Birżebbuġa Site, as determined by the Birżebbuġa Valuation Report, decreases below the amount specified in the Qawra Valuation Report and/or the Birżebbuġa Valuation Report (as applicable), the Security Trustee shall have the right to request, and the Issuer and/or the Guarantor/s and/or any such person forming part of the Group shall be obligated to provide, within twenty (20) Business Days of such request (or such additional time as the Security Trustee may permit), additional collateral in favour of the Security Trustee reasonably acceptable to the Security Trustee, sufficient to restore the value of the collateral to a level at least equal to the value stated in the Qawra Valuation Report and/or the Birżebbuġa Valuation Report (as applicable) or as otherwise acceptable to the Security Trustee. The valuation of such additional collateral shall be conducted by an independent and qualified valuer appointed by the Trustee at the Issuer's expense. Failure to comply with this provision shall constitute an Event of Default.

Upon any such declaration being made as aforesaid the said principal monies and interest accrued under the Secured Bonds shall be deemed to have become immediately payable at the time of the event which shall have happened as aforesaid.

Provided that in the event of any breach by the Issuer or the Guarantors of any of the covenants, obligations or provisions herein contained due to any fortuitous event of a calamitous nature or otherwise beyond the control of the Issuer or the Guarantors, then the Security Trustee may, but shall be under no obligation so to do, give the Issuer or the Guarantors such period of time to remedy the breach as in its sole opinion may be justified in the circumstances and if in its sole opinion the breach is remediable within the short term and without any adverse impact on the Bondholders. Provided further that in the circumstances contemplated by this proviso, the Security Trustee shall at all times take cognizance of and, to the extent considered reasonably possible, act on and in accordance with any directions it may receive in a meeting of Bondholders satisfying the conditions set out in the Security Trust Deed. The Security Trustee shall not be bound to take any steps to ascertain whether any event of default or other condition, event or circumstance has occurred or may occur, and, until it shall have actual knowledge or express notice to the contrary, the Security Trustee shall be entitled to assume that no such event of default or condition, event or other circumstance has happened and that the Issuer or Guarantors is observing and performing all the obligations, conditions and provisions on their respective parts contained in the Secured Bonds, the Security Trust Deed and, or the Guarantees (as applicable).

16.6 RIGHTS OF BONDHOLDERS

A Bondholder shall have such rights as are, pursuant to the terms and conditions of this Base Prospectus and the applicable Final Terms, attached to the Secured Bonds, including:

The Secured Bonds are freely transferable and, once admitted to the Official List, shall be transferable only in whole in accordance with the rules and regulations of the MSE applicable from time to time.

Any person becoming entitled to a Secured Bond in consequence of the death or bankruptcy of a Bondholder may, upon such evidence being produced as may from time to time properly be required by the Issuer or the CSD, elect either to be registered himself as holder of the Secured Bond or to have some person nominated by him registered as the transferee thereof. If the person so becoming entitled shall elect to be registered himself, he shall deliver or send to the CSD a notice in writing signed by him stating that he so elects. If he shall elect to have another person registered, he shall testify his election by transferring the Secured Bond, or procuring the transfer of the Secured Bond, in favour of that person.

All transfers and transmissions are subject in all cases to any pledge (duly constituted) of the Secured Bonds and to any applicable laws and regulations.

The cost and expenses of effecting any registration of transfer or transmission, except for the expenses of delivery by any means other than regular mail (if any) and except, if the Issuer shall so require, the payment of a sum sufficient to cover any tax, duty or other governmental charge or insurance charges that may be imposed in relation thereto, will be borne by the transferee.

The Issuer will not register the transfer or transmission of Secured Bonds for a period of 15 days preceding the due date for any payment of interest on the Secured Bonds.

16.8 PAYMENTS

Payment of the principal amount of Secured Bonds will be made in Euro (€) by the Issuer to the person in whose name such Bonds are registered, with interest accrued up to the Redemption Date or an Early Redemption Date (as applicable), by means of direct credit transfer into such bank account as the Bondholder may designate from time to time, provided such bank account is denominated in Euro (€) and held with any licensed bank in Malta. Such payment shall be effected within seven days of the Redemption Date or the Early Redemption Date (as applicable). The Issuer shall not be responsible for any loss or delay in transmission. Upon payment of the applicable Redemption Value on the Redemption Date or Early Redemption Date (as applicable), the Secured Bonds shall be redeemed, and the appropriate entry made in the electronic register of the Secured Bonds at the CSD.

In the case of Secured Bonds held subject to usufruct, payment will be made against the joint instructions of all bare owners and usufructuaries. Before effecting payment, the Issuer and, or the CSD shall be entitled to request any legal documents deemed necessary concerning the entitlement of the bare owner/s and the usufructuary/ies to payment of the Secured Bonds.

Payment of interest on a Secured Bond will be made to the person in whose name such Secured Bond is registered at the close of business of the register cut-off date as specified in the applicable Final Terms (the “**Register Cut-Off Date**”), by means of a direct credit transfer into such bank account as the Bondholder may designate, from time to time, which is denominated in Euro and held with any licensed bank in Malta. Such payment shall be effected within seven days of the applicable Interest Payment Date. The Issuer shall not be responsible for any loss or delay in transmission.

All payments with respect to the Secured Bonds are subject in all cases to any applicable fiscal or other laws and regulations prevailing in Malta. In particular, but without limitation, all payments of principal and interest by or on behalf of the Issuer in respect of the Secured Bonds shall be made net of any amount which the Issuer is or may become compelled by law to deduct or withhold for or on account of any present or future taxes, duties, assessments or other government charges of whatsoever nature imposed, levied, collected, withheld or assessed by or within the Republic of Malta or any authority thereof or therein having power to tax.

No commissions or expenses shall be charged by the Issuer to Bondholders in respect of such payments.

In terms of article 2156 of the Civil Code, the right of Bondholders to bring claims for payment of interest and repayment of the principal on the Secured Bonds is barred by the lapse of five years.

16.9 YIELD

The gross yield of each Tranche calculated on the basis of the Interest, the Bond Issue Price and the Redemption Value of the Secured Bonds shall be set out in the Final Terms.

16.10 REDEMPTION

Unless previously purchased and cancelled, the Secured Bonds will be redeemed at their nominal value (together with interest accrued to the date fixed for redemption) on the Redemption Date or the Early Redemption Date (as applicable). If Tranches of Secured Bonds are fungible, and the Issuer elects to partially redeem the Secured Bonds on an Early Redemption Date, such redemption shall be made on a *pari passu* basis across all fungible Tranches. If a Tranche is not fungible with any other Tranches issued under this Programme, the Issuer may redeem that specific Tranche in part on an Early Redemption Date without being required to redeem any of the other Tranches.

Subject to the provisions of this section 16.10, the Issuer may at any time purchase Secured Bonds in the open market or otherwise at any price. Any purchase by tender shall be made available to all Bondholders alike.

All Secured Bonds repurchased by the Issuer shall be cancelled forthwith and may not be reissued or re-sold.

16.11 BONDHOLDERS' MEETINGS

The Security Trust Deed contains provisions for convening meetings of Bondholders to consider any matter affecting their interests, including the sanctioning of a modification of any of the Terms and Conditions or any provisions of the Security Trust Deed. The Bondholders' Meeting represents the supreme authority of the Bondholders in all matters relating to the Secured Bonds and has the power to make all decisions altering the Terms and Conditions.

In terms of the Security Trust Deed, Bondholders' Meetings shall be convened in accordance with the following provisions:

16.11.1 Purpose of Bondholders' Meetings

16.11.1.1 A Bondholders' Meeting may be called for the purpose of consultation with Bondholders or for the purpose of obtaining the consent of Bondholders on matters which in terms of the Base Prospectus or the Security Trust Deed require the approval of a Bondholders' Meeting and to effect any change to the applicable Terms and Conditions, including any change to a material term of issuance of the Secured Bonds or the Base Prospectus.

16.11.1.2 In the event that the Issuer is desirous of amending the Final Terms of one particular Tranche, it is only Bondholders of that particular Tranche (the “**Affected Bondholders**”) who shall be entitled to attend, and vote at, a meeting summoned for this purpose.

16.11.1.3 All Bondholders shall be entitled to attend meetings pertaining to the reduction, waiver or substitution of the Collateral where the Security Trustee determines that any reduction, waiver or substitution of the Collateral requires the consent of Bondholders.

16.11.1.4 Where the approval of the Bondholders is required for a particular matter, such resolution shall be passed at a Bondholders' Meeting. Meetings of Bondholders and Affected Bondholders shall be summoned and conducted in the manner prescribed hereunder.

16.11.2 Procedural Rules for Bondholders' Meetings

16.11.2.1 A meeting of Bondholders or Affected Bondholders (as applicable) shall be held at the written request of:

- (a) the Issuer; or
- (b) the Security Trustee

16.11.2.2 The meeting of Bondholders or Affected Bondholders (as applicable) shall be called by the Security Trustee. A request for a meeting shall be made in writing to the Security Trustee and shall clearly state the matters to be discussed. If the Security Trustee does not call the meeting within 21 days from the receipt of the said request, the requesting party may call the meeting itself.

16.11.2.3 The Security Trustee shall, by not less than 14 days' notice in writing, call such meeting by giving all Bondholders or Affected Bondholders (as applicable) listed in the register of Bondholders as at a date being not more than 30 days preceding the date scheduled for the meeting. Such notice shall set out the time, place and date set for the meeting and the matters to be discussed or decided thereat, including, if applicable, sufficient information on any amendment of the Base Prospectus or the terms and conditions of a Tranche that is proposed to be voted upon at the meeting and seeking the approval of the Bondholders. If amendments to the Base Prospectus or the terms and conditions of a Tranche have been proposed, the main content of the proposal shall be contained in the notice.

16.11.2.4 A meeting of Bondholders or Affected Bondholders (as applicable) shall only validly and properly proceed to business if there is a quorum present at the commencement of the meeting. For this purpose, a quorum shall be constituted by at least two Bondholders or Affected Bondholders (as the case may be) present, in person or by proxy, representing not less than:

- i. 50% in nominal value of the Bonds in issue, in the case of a meeting of all Bondholders; or
- ii. 50% in nominal value of the Bonds in issue in a particular Tranche held by the Affected Bondholders, in the case of a meeting of Affected Bondholders.

16.11.2.5 If a quorum is not present within 30 minutes from the time scheduled for the commencement of the meeting as indicated on the notice convening same, the meeting shall stand adjourned to a place, date and time as shall be communicated by the Directors to the Bondholders present at that meeting. The Issuer shall within two days from the date of the original meeting publish by way of a company announcement the date, time, and place where the adjourned meeting is to be held. An adjourned meeting shall be held not earlier than seven days, and not later than 15 days, following the original meeting. At an adjourned meeting the number of Bondholders present, in person or by proxy, shall constitute a quorum; and only the matters specified in the notice calling the original meeting shall be placed on the agenda of, and shall be discussed at, the adjourned meeting.

16.11.2.6 Once a quorum is declared present by the chairman of the meeting, the meeting may then proceed to business and address the matters set out in the notice convening the meeting. In the event of decisions being required at the meeting the directors or their representative shall present to the Bondholders or Affected Bondholders the reasons why it is deemed necessary or desirable and appropriate that a particular decision is taken. The meeting shall allow reasonable and adequate time for Bondholders or Affected Bondholders to present their views to the Issuer and the other Bondholders present at the meeting. The meeting shall then put the matter as proposed by the Issuer to a vote of the Bondholders or Affected Bondholders present at the time at which the vote is being taken, and any Bondholders or Affected Bondholders taken into account for the purpose of constituting a quorum who are no longer present for the taking of the vote shall not be taken into account for the purpose of such vote.

16.11.2.7 The meeting shall be held on the premises designated by the Security Trustee. The meeting shall be chaired by the Security Trustee, unless otherwise decided by the meeting

16.11.2.8 Minutes of the meeting shall be kept. The minutes shall state the numbers of Bondholders and Secured Bonds represented at the Bondholders' Meeting, the resolutions passed at the meeting and the result of the voting. The minutes shall be signed by the chairman of the meeting. The minutes shall be deposited with the Security Trustee.

16.11.2.9 The Bondholders and the Security Trustee have the right to attend the Bondholders' Meeting. The chairman may grant access to the meeting to other parties unless the Bondholders' Meeting decides otherwise. A Bondholder may attend by a representative holding proxy.

16.11.2.10 The Security Trustee shall circulate proxy forms to Bondholders with the notice convening the Bondholders' Meeting.

16.11.2.11 Representatives of the Issuer have the right to attend the Bondholders' Meeting. The Bondholders' Meeting may resolve that the Issuer's representatives may not participate in particular matters. The Issuer has the right to be present when voting takes place.

16.11.2.12 The Security Trustee may provide for virtual or remote meetings of Bondholders, provided that any such meetings allow Bondholders to ask questions and to exercise their right to vote at such meetings.

16.11.3 Resolutions passed at Bondholders' Meetings

16.11.3.1 Unless otherwise specified in the Base Prospectus and, or the Security Trust Deed, the proposal placed before a meeting of Bondholders or Affected Bondholders shall only be considered approved if at least 75% in nominal value of the Bondholders or Affected Bondholders (as applicable) present at the meeting at the time when the vote is being taken, in person or by proxy, shall have voted in favour of the proposal.

16.11.3.2 At the meeting of Bondholders or Affected Bondholder each Bondholder or Affected Bondholder may cast one vote for each Secured Bond held at close of business on the day prior to the date of the meeting and as recorded on the register of Bondholders maintained by the CSD.

16.11.3.3 In all matters, the Issuer, the Security Trustee, and any Bondholder or Affected Bondholders shall have the right to demand a poll.

16.11.3.4 The meeting may not adopt resolutions which may give certain Bondholders an unreasonable advantage at the expense of other Bondholders.

16.11.3.5 The Security Trustee shall ensure that resolutions passed at the Bondholders' Meeting are properly implemented; however, the Security Trustee may refuse to carry out resolutions being in conflict with the Base Prospectus or any applicable law.

16.11.3.6 The Issuer and the Bondholders shall be notified of resolutions passed at the Bondholders' Meeting.

16.12 MODIFICATION OF THE SECURITY TRUST DEED

The Security Trustee may agree, without the consent of the Bondholders, to the modification of percentage of the Projected Sales Price. The Security Trustee may also, in its absolute and uncontrolled discretion, waive on such terms and conditions as it shall deem expedient any of the covenants and provisions contained in the Security Trust Deed on the part of the Issuer and, or the Guarantors to be performed and observed. Any such waiver, modification, authorisation, or determination shall be binding on the Bondholders and, if the Security Trustee so requires, such modification shall be notified to the Bondholders as soon as practicable.

16.13 ENFORCEMENT

In terms of the Security Trust Deed, the Security Trustee may in its absolute and uncontrolled discretion and shall upon the request in writing of not less than [seventy five percent (75%) in nominal value of the Secured Bonds present at the meeting at the time when the vote is being taken, by notice in writing to the Issuer declare the Secured Bonds to have become immediately due and payable upon the happening of an Event of Default.

18. TAXATION

Investors and prospective investors are urged to seek professional advice as regards both Maltese and any foreign tax legislation which may be applicable to them in respect of the Secured Bonds, including their acquisition, holding and transfer as well as on any income derived therefrom or on any gains derived on the transfer of such Secured Bonds. The following is a summary of the anticipated tax treatment applicable to Bondholders in so far as taxation in Malta is concerned. This information does not constitute legal or tax advice and does not purport to be exhaustive.

Kindly note that the below overview is limited to the key Malta tax considerations. Investors and prospective investors are advised to seek counsel from their tax advisors outside Malta, where any foreign tax considerations may be relevant.

The information below is based on an interpretation of tax law and practice relative to the applicable legislation, as known to the Issuer at the date of the Base Prospectus, in respect of a subject on which no official guidelines exist. Investors are reminded that tax law and practice and their interpretation as well as the levels of tax on the subject matter referred to in the preceding paragraph, may change from time to time.

This information is being given solely for the general information of investors. The precise implications for investors will depend, among other things, on their particular circumstances and on the classification of the Secured Bonds from a Maltese tax perspective, and professional advice in this respect should be sought accordingly.

18.1 MALTA TAX ON INTEREST

Since interest is payable in respect of a Secured Bond which is the subject of a public issue, unless the Issuer is instructed by a Bondholder to receive the interest gross of any withholding tax, or if the Bondholder does not fall within the definition of “recipient” in terms of Article 41(c) of the Income Tax Act (Chapter 123 of the laws of Malta, hereinafter the “**Income Tax Act**”), interest shall be paid to such Bondholder net of a final withholding tax, currently at the rate of fifteen per cent (15%) (ten per cent (10%) in the case of certain types of collective investment schemes) of the gross amount of the interest, pursuant to Article 33 of the Income Tax Act. Bondholders who do not fall within the definition of a “recipient” do not qualify for the said rate and should seek advice on the taxation of such income as special rules may apply.

This withholding tax is considered as a final tax and a Maltese resident individual Bondholder is not obliged to declare the interest so received in his income tax return (to the extent that the interest is paid net of tax). No person shall be charged to further tax in respect of such income. Furthermore, such tax should not be available as a credit against the recipient's tax liability or for a refund, as the case may be, for the relevant year of assessment in Malta. The Issuer is required to submit to the Maltese Commissioner for Revenue the tax withheld by the fourteenth day following the end of the month in which the payment is made. The Issuer will also render an account to the Maltese Commissioner for Revenue of all amounts so deducted, including the identity of the recipient.

In the case of a valid election made by an eligible Bondholder resident in Malta to receive the interest due without the deduction of final tax, interest will be paid gross and such person will be obliged to declare the interest so received in his Maltese income tax return and be subject to tax on such interest at the standard rates applicable to such Bondholder at that time. Additionally, in this latter case the Issuer will advise the Maltese Commissioner for Revenue on an annual basis in respect of all interest paid gross and of the identity of all such recipients. Any such election made by a resident Bondholder at the time of subscription may be subsequently changed by giving notice in writing to the Issuer. Such election or revocation will be effective within the time limit set out in the Income Tax Act.

In terms of article 12(1)(c) of the Income Tax Act, Bondholders who are not resident in Malta satisfying the applicable conditions set out in the Income Tax Act are not taxable in Malta on the interest received and will receive interest gross, subject to the requisite declaration/evidence being provided to the Issuer in terms of law.

18.2 MALTESE TAXATION OF CAPITAL GAINS ON TRANSFERS OF THE SECURED BONDS

As the Secured Bonds do not fall within the definition of “securities” in terms of article 5(1)(b) of the Income Tax Act, that is, “shares and stocks and such like instrument that participate in any way in the profits of the company and whose return is not limited to a fixed rate of return”, to the extent that the Secured Bonds are held as capital assets by the Bondholders, no tax on capital gains is chargeable in respect of transfer of the Secured Bonds.

18.3 DUTY ON DOCUMENTS AND TRANSFERS

In terms of the Duty on Documents and Transfers Act (Chapter 364 of the laws of Malta), duty is chargeable, *inter alia*, on the transfer *inter vivos* or transmission *causa mortis* of marketable securities. A marketable security is defined in the said legislation as “a holding of share capital in any company and any document representing the same”.

Consequently, the Secured Bonds should not be treated as constituting marketable securities within the meaning of the legislation and therefore, the transfer / transmission thereof should not be chargeable to duty.

Furthermore, even if the Secured Bonds are considered marketable securities for the purposes of the Duty on Documents and Transfers Act, in terms of article 50 of the Financial Markets Act (Chapter 345 of the laws of Malta) since the Secured Bonds constitute financial instruments of a quoted company (as defined in such Act), redemptions and transfers of the Secured Bonds should, in any case, be exempt from duty.

INVESTORS AND PROSPECTIVE INVESTORS ARE URGED TO SEEK PROFESSIONAL ADVICE AS REGARDS BOTH MALTESE AND ANY FOREIGN TAX LEGISLATION APPLICABLE TO THE ACQUISITION, HOLDING AND DISPOSAL OF SECURED BONDS AS WELL AS INTEREST PAYMENTS MADE BY THE ISSUER. THE ABOVE IS A SUMMARY OF THE ANTICIPATED TAX TREATMENT APPLICABLE TO THE SECURED BONDS AND TO BONDHOLDERS. THIS INFORMATION, WHICH DOES NOT CONSTITUTE LEGAL OR TAX ADVICE, REFERS ONLY TO BONDHOLDERS WHO DO NOT DEAL IN SECURITIES IN THE COURSE OF THEIR NORMAL TRADING ACTIVITY.

18.4 EXCHANGE OF INFORMATION

In terms of applicable Maltese legislation, the Issuer and, or its agent may be required to collect and forward certain information (including, but not limited to, information regarding payments made to certain Bondholders) to the Maltese Commissioner for Revenue. The Maltese Commissioner for Revenue will or may, in turn, automatically or on request, forward the information to other relevant tax authorities subject to certain conditions.

Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU, 2015/2376, 2016/881 and 2016/2258) provides for the implementation of the Common Reporting Standard (“CRS”) into Maltese legislation. The CRS has been proposed by the OECD as a new global standard for the automatic exchange of financial account information between tax authorities in participating jurisdictions. CRS has been transposed into Maltese legislation by virtue of the Cooperation with Other Jurisdictions on Tax Matters Regulations, Subsidiary Legislation 123.127 (“**CRS Legislation**”). Malta based financial institutions (“**FIs**”) (defined as such for the purposes of CRS) are obliged to identify and report to the Maltese tax authorities financial accounts held by a Reportable Person, as defined under the CRS Legislation, and certain entities with one or more Controlling Persons, as defined under the CRS Legislation, which is classified as a Reportable Person. Financial information relating to Secured Bonds and the holders of the Secured Bonds may fall within the purview of CRS and may be subject to reporting and information exchange provisions.

In particular with respect to CRS, the following information will be reported annually by the FIs to the Maltese competent authority in respect of each reportable account maintained by the FIs: i. The name, address, jurisdiction of tax residence, tax identification number (TIN) and date and place of birth (in the case of an individual); ii. The account number (or functional equivalent in the absence of an account number); iii. The account balance or value as of the end of the relevant calendar year or other appropriate reporting period or, if the account was closed during such year or period, the closure of the account; iv. The total gross amount paid or credited to the account holder with respect to the account during the calendar year or other appropriate reporting period with respect to which the FI is the obligor or debtor, including the aggregate amount of any redemption payments made to the account holder during the calendar year or other appropriate reporting period.

The Maltese tax authorities shall by automatic exchange framework for reciprocal information exchange, communicate to the other competent authority on annual basis, any relevant information that may fall to be classified as reportable, and vice versa.

Foreign Tax Compliance Act (“**FATCA**”) has been implemented into Maltese law through the Exchange of Information (United States of America) (FATCA) Order, Subsidiary Legislation 123.156 (“**FATCA Legislation**”). Under the FATCA Legislation, FIs in Malta (defined as such for the purposes of FATCA) are obliged to identify and report financial accounts held by Specified U.S. persons, as defined under the FATCA Legislation, and certain non-U.S. entities which are controlled by U.S. Controlling Persons, as defined under the FATCA Legislation, to the Maltese tax authorities. The Maltese Government and the Government of the U.S. shall annually exchange the information obtained pursuant to the Order on an automatic basis. Non-compliance may result in a punitive thirty (30%) withholding tax on distributions captured by FATCA. Financial account information in respect of holders of the Secured Bonds could fall within the scope of FATCA and they may therefore be subject to reporting obligations.

In particular, FIs reserve the right to store, use, process, disclose and report any required information including all current and historical data related to the past and, or present account/s held by Reportable Persons, including, but not limited to, the name, address, date of birth, place of birth and US TIN, the details of any account transactions, the nature, balances and compositions of the assets held in the account, to the Maltese competent authority.

FIs reserve the right to request any information and, or documentation required, in respect of any financial account, in order to comply with the obligations imposed under FATCA and CRS and any referring legislation. In the case of failure to provide satisfactory documentation and, or information, FIs may take such action as it thinks fit, including without limitation, the closure of the financial account.

INVESTORS AND PROSPECTIVE INVESTORS ARE URGED TO SEEK PROFESSIONAL ADVICE AS REGARDS BOTH MALTESE AND ANY FOREIGN TAX LEGISLATION APPLICABLE TO THE ACQUISITION, HOLDING AND DISPOSAL OF SECURED BONDS AS WELL AS INTEREST PAYMENTS MADE BY THE ISSUER. THE ABOVE IS A SUMMARY OF THE ANTICIPATED TAX TREATMENT APPLICABLE TO THE SECURED BONDS AND TO BONDHOLDERS. THIS INFORMATION, WHICH DOES NOT CONSTITUTE LEGAL OR TAX ADVICE, REFERS ONLY TO BONDHOLDERS WHO DO NOT DEAL IN SECURITIES IN THE COURSE OF THEIR NORMAL TRADING ACTIVITY.

(hereinafter, the “**Issuer**”) in connection with a secured programme of up to €40 million Secured Bonds (as the same may be amended, varied or supplemented, including the applicable final terms, hereinafter referred to as the “**Base Prospectus**”) the Issuer shall, under the joint and several guarantee of the Guarantor, issue up to €40 million Secured Bonds to be redeemed and finally repaid by the Redemption Date (as defined in the Base Prospectus) or an Early Redemption Date (as defined in the Base Prospectus), on which date the Issuer shall be entitled to prepay all or part of the principal amount of the Secured Bonds and all interests accrued up to the date of prepayment, subject to the terms and conditions of the Base Prospectus (the “**Secured Bonds**”);

- D. the Guarantor has agreed to the conclusion and execution of this Guarantee in favour of the Security Trustee.

NOW, THEREFORE, THE GUARANTOR IS HEREBY COVENANTING IN FAVOUR OF THE SECURITY TRUSTEE AS FOLLOWS:

1. INTERPRETATION

In this Guarantee, unless the context otherwise requires:

- (a) terms and expressions defined in or construed for the purposes of the Base Prospectus shall have the same meanings or be construed in the same manner when used in this Guarantee, unless defined otherwise in this Guarantee;
- (b) “**Indebtedness**” means any and all moneys, obligations, and liabilities now or hereafter due, owing or incurred by the Issuer under the Secured Bonds to the Bondholders (whether alone and, or with others) in terms of the Base Prospectus and in any and all cases whether for principal, interests, capitalised interests, charges, disbursements, or otherwise and whether for actual or contingent liability; and
- (c) “**writing**” or “**in writing**” shall mean any method of visual representation and shall include facsimile transmissions, telexes, and other such electronic methods.

2. GUARANTEE

2.1 Covenant to Pay

In satisfaction of the conditions precedent for the issuance of the Secured Bonds, and in consideration of the Bondholders acquiring the Secured Bonds, the Guarantor, as duly authorised, without proof of liability or evidence and as primary obligor, hereby jointly and severally with the Issuer, unconditionally and irrevocably guarantees to the Security Trustee, for the benefit of itself and the Bondholders (in proportion to their respective holding of Secured Bonds) the payment of, and undertakes on first demand in writing made by the Security Trustee on the Guarantor, to pay the Indebtedness to the Security Trustee or any balance thereof at any time due or owing under the Secured Bonds.

2.2 Maximum Liability of the Guarantor

This is a continuing Guarantee for the whole amount due or owing under the Secured Bonds or which may hereafter at any time become due or owing under the Secured Bonds by the Issuer but the amount due by Guarantor to the Security Trustee under this Guarantee shall be up to and shall not be in excess of €40 million apart from interests due up to the date of payment and costs and expenses relating to the protection, preservation, collection or enforcement of the Security Trustee's rights against the Issuer and the Guarantor which shall be additional to the maximum sum herein stated.

2.3 Collateral supporting Guarantee

The Guarantee shall be further supported by the following security interests constituted in favour of the Security Trustee:

- vii. the Pledge of Insurances Agreements.

2.4 Indemnity

As a separate and independent stipulation, the Guarantor agrees to indemnify the Security Trustee on demand for any damages, losses (excluding loss of profit), costs and expenses arising from any failure on the part of the Issuer to perform any obligation to the Security Trustee and the Guarantor so agrees to indemnify the Security Trustee even in the event that any obligation of the Issuer to the Security Trustee is invalid or ceases to be valid and enforceable against the Issuer for any reason whatsoever including, but without limitation, any legal limitation or any disability or incapacity of the Issuer. In such an event the Guarantor shall be liable towards the Security Trustee as if that obligation was fully valid and enforceable and as if the Guarantor were the principal debtor in respect thereof and shall pay all sums due to the Security Trustee within seven days of a demand in writing by the Security Trustee.

3. CONTINUING AND UNCONDITIONAL LIABILITY

3.1 The liability of the Guarantor under this Guarantee shall be continuing until such time as the Indebtedness is fully repaid and shall in no way be prejudiced or effected, nor shall it in any way be discharged or reduced by reason of:

- (a) the bankruptcy, insolvency or winding up of the Issuer; or
- (b) the incapacity or disability of the Issuer or any other person liable for any reason whatsoever; or
- (c) any change in the name, style, constitution, any amalgamation, or reconstruction of either the Issuer, or the Guarantor; or
- (d) the Security Trustee conceding any time or indulgence, or compounding with, discharging, releasing or varying the liability of the Issuer or any other person liable or renewing, determining, reducing, varying or increasing any accommodation or transaction or otherwise dealing with the same in any manner whatsoever or concurring in, accepting or in any way varying any compromise, composition, arrangement or settlement or omitting to claim or enforce or exact payment from the Issuer or any other person liable; or
- (e) any event, act or omission that might operate to exonerate the Guarantor without settlement in full of the Indebtedness towards the Security Trustee.

3.2 The Security Trustee is being expressly authorised to vary the Base Prospectus and, or modify the Indebtedness or to release or modify any guarantees or any security the Security Trustee may hold as security for the Indebtedness and this without the need of any prior or subsequent notice to the Guarantor and without any prejudice to the rights of the Security Trustee hereunder. The Guarantor is also hereby expressly consenting to any assignments and transfers made by the Issuer in accordance with the Base Prospectus and this without the need of any prior or subsequent notice to the Guarantor and without any prejudice to the rights of the Security Trustee hereunder.

4. WAIVER OF THE GUARANTOR'S RIGHTS AND THE GUARANTOR'S WARRANTIES

4.1 Until the Indebtedness has been paid in full the Guarantor agrees that it will not, without the prior written consent of the Security Trustee:

- (a) exercise any rights of subrogation, reimbursement and indemnity against the Issuer or any other person liable for the Indebtedness;
- (b) demand or accept repayment, in whole or in part, of any indebtedness now or hereafter due to the Guarantor either from the Issuer or from any other person liable for the Indebtedness or demand any collateral in respect of same or dispose of same;
- (c) take any step to enforce any right against the Issuer or any other person liable for the Indebtedness;
- (d) claim any set-off or counter-claim against the Issuer or any other person liable for the Indebtedness nor shall the Guarantor claim or prove in competition with the Security Trustee in the liquidation of the Issuer or any other person liable for the Indebtedness or benefit or share any payment from or in composition with the Issuer or any other person liable for the Indebtedness.

4.2 Subject to the overriding provisions of the Base Prospectus until the Indebtedness has been paid in full the Guarantor further agrees that:

- (a) if an Event of Default under the Base Prospectus occurs, any sums which may be received by it from the Issuer or any person liable for the Indebtedness shall be held by it on trust exclusively for the Security Trustee and shall be paid to the Security Trustee immediately upon demand in writing or immediately after its receipt if such obligation arises from the documents executed by the Issuer in connection with the Base Prospectus;

- (b) all rights of relief and subrogation arising in favour of the Guarantor upon a partial payment to the Security Trustee against the Issuer and any other person who may be liable for the Indebtedness, shall be suspended;
- (c) the Security Trustee may and shall receive and retain the whole of the liquidation dividends to the exclusion of the rights (if any) of the Guarantor in competition with the Security Trustee and pursuant to the above the Security Trustee is entitled to hold all payments made by the Guarantor or the Issuer on account of the Indebtedness in suspense for a period of six months from the date of payment and any such payments on account shall not be applied in reduction of the Indebtedness for a period of six months as stated. The Security Trustee may accordingly prove for the whole Indebtedness of the Issuer in liquidation after excluding any and all payments made within a period of six months prior to the liquidation of the Issuer;
- (d) the Security Trustee shall not be required to exhaust any remedy or remedies it may have against the Issuer or other persons who may be liable for the Indebtedness for the settlement of all the Indebtedness before claiming against the Guarantor under this Guarantee which is to be construed as entirely independent from the relationship between the Security Trustee and the Issuer and providing immediate recourse against the Guarantor under this Guarantee. The Guarantor hereby waives any benefit of discussion or division which may be available under any applicable law.

5. SETTLEMENTS CONDITIONAL

Any release, discharge or settlement between the Guarantor and the Security Trustee shall be conditional upon no security, disposition or payment to the Security Trustee by the Issuer or the Guarantor or any other third party liable to being void or set aside for any reason whatsoever and if, for any reason whatsoever, this condition is not fulfilled, such release, discharge or settlement shall be of no effect whatsoever and this Guarantee shall again come into force for all effects and purposes of law.

6. ADDITIONAL GUARANTEE

This Guarantee is to be construed as being in addition to and in no way prejudicing any other securities or guarantees which the Security Trustee may now or hereafter hold from or on account of the Issuer and is to be binding on the Guarantor as a continuing Guarantee until full and final settlement of all the Issuer's indebtedness towards the Security Trustee. Moreover, the remedies provided in this Guarantee are cumulative and are not exclusive of any remedies provided by law.

7. BENEFIT OF THIS GUARANTEE AND NO ASSIGNMENT

- 7.1 This Guarantee is to be immediately binding upon the Guarantor for the benefit of the Security Trustee and the liability hereunder is not subject to any conditions as to additional security being received by the Security Trustee or otherwise.
- 7.2 The Guarantor shall not be entitled to assign or transfer any of its obligations under this same Guarantee.

8. REPRESENTATIONS AND WARRANTIES

8.1 The Guarantor represents and warrants: -

- (a) that it is duly incorporated and validly existing under the laws of Malta and has the power to carry on its business;
- (b) that it has power to grant this Guarantee and that this Guarantee is duly authorised and all corporate action has been taken by the Guarantor in accordance with its deeds of constitution and the laws of its incorporation and regulation;
- (c) that this Guarantee constitutes and contains valid and legally binding obligations of the Guarantor enforceable in accordance with its terms;
- (d) that this Guarantee does not and will not constitute default with respect to or run counter to any law, by-law, articles of incorporation, statute, rule, regulation, judgement, decree or permit to which the Guarantor is or may be subject; or any agreement or other instrument to which the Guarantor is a party or is subject or by which it or any of its property is bound;
- (e) that this Guarantee shall not result in or cause the creation or imposition of or oblige the Guarantor to create any encumbrance on any of that Guarantor's undertakings, assets, rights or revenues;
- (f) that it is in no way engaged in any litigation, arbitration or administrative proceeding of a material nature and nor is it threatened with any such procedures;
- (g) that the obligations binding it under this Guarantee rank at least *pari passu* with all other present and future unsecured indebtedness of the Guarantor with the exception of any obligations which are mandatorily preferred by law;
- (h) that it is not in breach of or in default under any agreement relating to indebtedness to which it is a party or by which it may be bound nor has any default occurred in its regard;
- (i) that all the information, verbal or otherwise tendered in connection with the negotiation and preparation of this Guarantee is accurate and true and there has been no omission of any material facts;
- (j) that the granting of this Guarantee is in the commercial interest of the Guarantor and that the Guarantor acknowledges that it is deriving commercial benefit therefrom.

8.2 As from the date of this Guarantee, until such time as the Indebtedness is paid in full to the Security Trustee, and for as long as this Guarantee shall remain in force, the Guarantor shall hold true, good, and valid all the representations and warranties given under this clause, except for representations and warranties in limbs (f) and (h) which are given only as at the date of this Guarantee.

9. DEMANDS AND PAYMENTS

- 9.1 All the Indebtedness shall be due by the Guarantor under this Guarantee as a debt, certain, liquidated, and due on the seventh day following the Security Trustee's first written demand to the Guarantor to pay. All demands shall be sent to the address or facsimile or other numbers as are stated below in Article 11 as the same may be changed by notice in writing by one party to the other.

The demand shall be accompanied by a statement by the Security Trustee confirming that to the best of its knowledge there exist, at the time of the demand, circumstances which constitute an Event of Default or such that may render the underlying obligations of the Issuer to the Security Trustee invalid and unenforceable for any reason whatsoever.

It is expressly agreed that the requirement of such statement is not a condition of liability of the Guarantor under this Guarantee and is entirely without prejudice to the on-demand nature of this Guarantee. Any disagreement by the Guarantor as to the contents of the statement shall not entitle the Guarantor to delay or interrupt the payment of the sum due under this Guarantee for any reason whatsoever.

- 9.2 The statement by the Security Trustee of the amount due under this Guarantee shall be binding on the Guarantor and shall be conclusive evidence of the sum due, saving only manifest error.
- 9.3 All payments shall be made to the Security Trustee without any withholding for taxes (and in so far as this obligation exists under any law the payment shall be grossed up by the amount of withholding) and without set-off for any amounts which may be then owing to the Guarantor by the Issuer or the Security Trustee. The Guarantor authorises the Security Trustee to apply any credit balance the Guarantor may have with the Security Trustee towards the satisfaction of the Indebtedness. The Security Trustee shall notify the Guarantor forthwith of the exercise of this right giving full details relating thereto.

10. NOTICES

- (c) “**writing**” or “**in writing**” shall mean any method of visual representation and shall include facsimile transmissions, telexes, and other such electronic methods.

2. GUARANTEE

2.1 Covenant to Pay

In satisfaction of the conditions precedent for the issuance of the Secured Bonds, and in consideration of the Bondholders acquiring the Secured Bonds, the Guarantor, as duly authorised, without proof of liability or evidence and as primary obligor, hereby jointly and severally with the Issuer, unconditionally and irrevocably guarantees to the Security Trustee, for the benefit of itself and the Bondholders (in proportion to their respective holding of Secured Bonds) the payment of, and undertakes on first demand in writing made by the Security Trustee on the Guarantor, to pay the Indebtedness to the Security Trustee or any balance thereof at any time due or owing under the Secured Bonds.

In such an event the Guarantor shall be liable towards the Security Trustee as if that obligation was fully valid and enforceable and as if the Guarantor were the principal debtor in respect thereof and shall pay all sums due to the Security Trustee within seven days of a demand in writing by the Security Trustee.

3. CONTINUING AND UNCONDITIONAL LIABILITY

- 3.1 The liability of the Guarantor under this Guarantee shall be continuing until such time as the Indebtedness is fully repaid and shall in no way be prejudiced or effected, nor shall it in any way be discharged or reduced by reason of:

- 3.2 The Security Trustee is being expressly authorised to vary the Base Prospectus and, or modify the Indebtedness or to release or modify any guarantees or any security the Security Trustee may hold as security for the Indebtedness and this without the need of any prior or subsequent notice to the Guarantor and without any prejudice to the rights of the Security Trustee hereunder. The Guarantor is also hereby expressly consenting to any assignments and transfers made by the Issuer in accordance with the Base Prospectus and this without the need of any prior or subsequent notice to the Guarantor and without any prejudice to the rights of the Security Trustee hereunder.

4. WAIVER OF THE GUARANTOR'S RIGHTS AND THE GUARANTOR'S WARRANTIES

- 4.1 Until the Indebtedness has been paid in full the Guarantor agrees that it will not, without the prior written consent of the Security Trustee:

The Guarantor hereby waives any benefit of discussion or division which may be available under any applicable law.

5. SETTLEMENTS CONDITIONAL

Any release, discharge or settlement between the Guarantor and the Security Trustee shall be conditional upon no security, disposition or payment to the Security Trustee by the Issuer or the Guarantor or any other third party liable to being void or set aside for any reason whatsoever and if, for any reason whatsoever, this condition is not fulfilled, such release, discharge or settlement shall be of no effect whatsoever and this Guarantee shall again come into force for all effects and purposes of law.

6. ADDITIONAL GUARANTEE

This Guarantee is to be construed as being in addition to and in no way prejudicing any other securities or guarantees which the Security Trustee may now or hereafter hold from or on account of the Issuer and is to be binding on the Guarantor as a continuing Guarantee until full and final settlement of all the Issuer's indebtedness towards the Security Trustee. Moreover, the remedies provided in this Guarantee are cumulative and are not exclusive of any remedies provided by law.

7. BENEFIT OF THIS GUARANTEE AND NO ASSIGNMENT

7.1 This Guarantee is to be immediately binding upon the Guarantor for the benefit of the Security Trustee and the liability hereunder is not subject to any conditions as to additional security being received by the Security Trustee or otherwise.

7.2 The Guarantor shall not be entitled to assign or transfer any of its obligations under this same Guarantee.

8. REPRESENTATIONS AND WARRANTIES

8.1 The Guarantor represents and warrants: -

- (a) that it is duly incorporated and validly existing under the laws of Malta and has the power to carry on its business;

- (f) that it is in no way engaged in any litigation, arbitration or administrative proceeding of a material nature and nor is it threatened with any such procedures;
- (g) that the obligations binding it under this Guarantee rank at least *pari passu* with all other present and future unsecured indebtedness of the Guarantor with the exception of any obligations which are mandatorily preferred by law;
- (h) that it is not in breach of or in default under any agreement relating to indebtedness to which it is a party or by which it may be bound nor has any default occurred in its regard;
- (i) that all the information, verbal or otherwise tendered in connection with the negotiation and preparation of this Guarantee is accurate and true and there has been no omission of any material facts;
- (j) that the granting of this Guarantee is in the commercial interest of the Guarantor and that the Guarantor acknowledges that it is deriving commercial benefit therefrom.

8.2 As from the date of this Guarantee, until such time as the Indebtedness is paid in full to the Security Trustee, and for as long as this Guarantee shall remain in force, the Guarantor shall hold true, good, and valid all the representations and warranties given under this clause, except for representations and warranties in limbs (f) and (h) which are given only as at the date of this Guarantee.

9. DEMANDS AND PAYMENTS

9.1 All the Indebtedness shall be due by the Guarantor under this Guarantee as a debt, certain, liquidated, and due on the seventh day following the Security Trustee's first written demand to the Guarantor to pay. All demands shall be sent to the address or facsimile or other numbers as are stated below in Article 11 as the same may be changed by notice in writing by one party to the other.

The demand shall be accompanied by a statement by the Security Trustee confirming that to the best of its knowledge there exist, at the time of the demand, circumstances which constitute an Event of Default or such that may render the underlying obligations of the Issuer to the Security Trustee invalid and unenforceable for any reason whatsoever.

It is expressly agreed that the requirement of such statement is not a condition of liability of the Guarantor under this Guarantee and is entirely without prejudice to the on-demand nature of this Guarantee. Any disagreement by the Guarantor as to the contents of the statement shall not entitle the Guarantor to delay or interrupt the payment of the sum due under this Guarantee for any reason whatsoever.

9.2 The statement by the Security Trustee of the amount due under this Guarantee shall be binding on the Guarantor and shall be conclusive evidence of the sum due, saving only manifest error.

9.3 All payments shall be made to the Security Trustee without any withholding for taxes (and in so far as this obligation exists under any law the payment shall be grossed up by the amount of withholding) and without set-off for any amounts which may be then owing to the Guarantor by the Issuer or the Security Trustee. The Guarantor authorises the Security Trustee to apply any credit balance the Guarantor may have with the Security Trustee towards the satisfaction of the Indebtedness. The Security Trustee shall notify the Guarantor forthwith of the exercise of this right giving full details relating thereto.

PART 1 – INFORMATION ABOUT THE GROUP

1. PRINCIPAL ACTIVITIES

PLAN Group p.l.c. was incorporated on 26 August 2022 and subsequently converted to a public limited liability company on 29 September 2023. The Issuer acts as the holding and finance company of PLAN Group which is involved in real estate development for resale, as well as the ownership and operation of care homes for the elderly – namely Golden Care Home (“**Golden Care**”) and Porziuncola by Golden Care (“**Porziuncola**”) which are situated in Naxxar and Baħar iċ-Ċagħaq respectively. Accordingly, the Issuer does not itself carry out any trading activities and is thus entirely dependent on the operations and performance of its subsidiary and associate entities.

In Q4 2023, the Group raised €12 million through the issuance of 5.75% secured bonds 2028 (“**2023 Bonds**”), guaranteed by PLAN (BBG) Limited (“**PLAN (BBG)**”), mainly for the purpose of acquiring a divided tract of land measuring circa 15,600 sqm situated in Birżebbuġa (the “**Birżebbuġa Site**”). Around 9,428 sqm of this site lies outside the development zone, whilst approximately 6,172 sqm falls within a development zone. Following the acquisition of the land, the Group submitted a planning control application to the Planning Authority, which was approved on 4 February 2025. Subsequently, PLAN Group submitted another planning control application in March 2025 to re-zone part of the site, as well as a full development application.

Works are expected to commence towards the end of 2025, with completion of the entire project anticipated in 2028. The development will comprise a residential component made up of 203 units and 204 lock-up garages (“**Birżebbuġa Development**”) and a 240-bed care home (“**Qajjenza Care Home**”). Subject to the acquisition of additional Government-owned land measuring circa 1,619 sqm under a title of perpetual emphyteusis, the total cost of the residential component is projected at around €35.60 million, whilst revenues from the sale of real estate are estimated at €54.70 million.¹ The Birżebbuġa Development is expected to be partly financed through the issuance of new debt securities forming part of a bond programme of up to €40 million (“**2025 Bonds**”), jointly and severally guaranteed by PLAN (BBG) and PLAN (Qawra) Limited (“**PLAN (Qawra)**”). On the other hand, the development and completion of the Qajjenza Care Home are expected to be financed through a €10 million bank loan, with construction works scheduled to commence towards the end of 2027 and operations anticipated to begin in 2029.

In September 2024, the Group entered into a promise of sale agreement (“**POSA**”) to acquire a house, together with an adjacent garage, situated on a plot of land measuring approximately 1,600 sqm, located in Mosta. The redevelopment project will comprise the construction of 39 residential units and 55 garages (“**Mosta Development**”), with works expected to commence in 2026 and be completed in 2028. The total cost of the project is projected at around €8.60 million, to be financed through bank borrowings and internally generated funds, whilst revenues are estimated at €12.68 million.

In January 2025, the Group entered into a POSA to acquire a farmhouse and adjacent land in Qawra, measuring circa 4,100 sqm, that falls within the development zone (“**Qawra Site**”). The acquisition of the property, together with the initial redevelopment costs, are expected to be financed through the 2025 Bonds. The project will comprise the construction of 188 residential units and 163 lock-up garages (“**Qawra Development**”), with works expected to commence in Q4 2025 and finished in 2028. The total cost of the project is projected at around €40.70 million whilst revenues are estimated at €53 million.

In September 2023, the Issuer acquired the one-third ownership of Gap Group Investments (II) Limited which is the parent company of Gap Group p.l.c. (“**Gap Group**”). The Security Trustee of the 2025 Bonds will not be entitled to receive any proceeds from the sale of the Hypothecated Properties forming part of the Birżebbuġa Development until such time as the Security Trustee of the 2023 Bonds has received €12 million in the Sinking Fund that it maintains. 8. TREND INFORMATION

8.1 ECONOMIC UPDATE²

According to the Central Bank of Malta’s August 2025 forecasts covering the period up to 2027, Malta’s real GDP growth is set to moderate from 5.90% in 2024 to 3.90% in 2025. Growth is set to ease further in the following two years, reaching 3.30% in 2027. Over the projection horizon, domestic demand is expected to be the main driver of growth. The latter is expected to be led by private consumption, while investment should also continue to recover. Furthermore, net exports are projected to contribute positively to GDP growth, driven by trade in services.

Private consumption growth is set to moderate to 4.20% in 2025, partly reflecting slower growth in employment and a higher savings rate by households. Nevertheless, private consumption is set to remain relatively buoyant, as household disposable income will be supported by still favourable labour market conditions and the widening of the income tax bands. The latter adjustment will also contribute to some increase in the disposable income which is expected to raise the saving ratio in 2025, as higher income households with a lower average propensity to consume should save some of the tax relief. In subsequent years, the saving ratio is envisaged to decline marginally but remain relatively elevated at 12.7% by 2027.

Real government consumption is set to grow at a slower rate of 4.60% in 2025, after having grown by 7.3% in 2024. Strong growth in 2024 reflected one-off payments on allowances due to newly signed collective agreements in the education sector and related arrears. Going forward, the impact of these one-off expenditures is partly offset by that of a collective agreement for the civil service, which became effective in 2025. Meanwhile, other elements of consumption expenditure, notably intermediate consumption, are set to grow at a declining pace. Overall, government consumption growth is set to ease to 3.90% in 2026 before rising to 4.20% in 2027.

Overall investment is projected to grow by 3.10% in 2025 before picking up to 3.70% in 2026. Investment should remain broadly unchanged in 2027, when government investment is projected to decline strongly. Private investment began to recover in 2024 and is expected to grow by 2.10% in 2025 and 3% and 3.20% in 2026 and 2027 respectively. Following strong growth in residential construction in 2024, expansion in such activity is expected to stand close to 1% in 2025 but be more muted until 2027 as investment outlays remain high from a historical perspective. Similarly, growth in non-dwelling private investment is expected to remain relatively contained during the projection horizon in view of the expected slowdown in economic activity. Government investment is forecast to increase in 2025 and 2026, mostly due to a pick-up in EU-funded investment related to the Recovery and Resilience Facility (“RRF”). Investment is then forecast to decline in 2027, as projects financed by the RRF are completed.

Export growth is set to moderate from 4.90% in 2024 to 4% in 2025 and edge down further to 3.5% by 2027. Growth in services exports is expected to ease following an extended period of robust growth, while staying close to 4%. At the same time, goods exports are set to grow at a slower rate of 1.30% in 2025, after a 5% increase in 2024, partly reflecting the effect of US tariffs and expected developments in Malta’s trading partners. Growth is then expected to increase slightly to 1.90% and 2.30% in 2026 and 2027 respectively. Similarly, growth in imports is expected to moderate, easing from 4.50% in 2024 to 4.10% in 2025, before decelerating to 3.70% and 3.10% in 2026 and 2027 respectively.

The current account in the balance of payments is expected to remain relatively stable at 5.70% in 2025 and 2026. In 2027, the ratio is expected to increase slightly to 6.30%, mainly driven by an improved trade balance resulting from a decline in imports due to lower government investment.

Potential output growth is expected to moderate throughout the projection horizon as it is set to slow from 5.50% in 2024 to 4.30% in 2025, and further to 4% and 3.50% in 2026 and 2027 respectively. This reflects declines in the contributions of all components of potential output. The capital contribution is expected to moderate due to the slower investment growth during the projection horizon, while that from labour is envisaged to decline due to expected lower net migration flows and slower increases in participation as this has reached very high levels.

The labour market remains strong and demand for labour is envisaged to stay high. However, the increase in employment is expected to moderate over the projection horizon, driven by the projected easing in economic growth and an assumed recovery in productivity. Inflows of foreign workers are also expected to slow down due to policies aimed at limiting inward migration flows such as skills card requirements, the regulation of temping agencies, and the moratorium on food couriers and cab drivers. Also, in the beginning of 2025 the Government launched the Malta Labour Migration Policy with several proposed measures to regulate the entry of third country nationals coming into force from August 2025. As a result, employment growth is expected to moderate gradually from 5.30% in 2024 to 3% in 2025 before easing further to 2.40% and 2.30% by 2026 and 2027 respectively.

The unemployment rate is forecast to edge down to 2.80% in 2025 and 2.70% in 2026 and 2027. As such, the labour market is envisaged to remain tight, as the non-accelerating inflation rate of unemployment is projected at around 3.20%, so that the unemployment gap is forecast to be slightly negative in 2026 and 2027.³ A persistently negative unemployment gap implies that labour market tightness will be a key factor driving the wage outlook. However, as inflation continues to moderate, together with a growing need for a small open economy as Malta to increase competitiveness, especially in the face of rising barriers to international trade, this should dampen upward pressure on wages. In this regard, wage growth is expected to moderate to 4.40% in 2025 from 6.30% in 2024 and is set to edge further down to 3.70% and 3.50% in 2026 and 2027 respectively.

Annual inflation rose in the first half of 2025, reaching 2.50% in June from 1.80% in December 2024. Going forward, inflation is projected to stand at 2.30% in 2025, reflecting mainly an envisaged decline in food and services inflation. Inflation is expected to ease further to 2.10% in 2026 and 2% in 2027, driven primarily by lower services inflation. Meanwhile, inflation excluding energy and food is projected to stand at 2.30% in 2025 and 1.90% in 2026 and 2027, mainly driven by an expected moderation in services inflation.

The general government deficit-to-GDP ratio is set to decline gradually over the forecast period. It is expected to narrow from 3.70% in 2024 to 3.40% in 2025 and to 3% and 2.60% in 2026 and 2027 respectively. This improvement in public finances is driven by a declining share of expenditure in GDP, which is primarily due to the profile of inflation-mitigation measures and capital expenditure. The share of current revenue in GDP is set to remain broadly stable between 2025 and 2027, but to be lower than the ratio in 2024. This is due to a one-off increase in corporate tax inflows in 2024, and the widening of income tax brackets from 2025, which will dampen the growth in household direct taxes. As a result, the ratio of current taxes on income and wealth to GDP is set to decline in 2025, and to remain broadly unchanged in 2026 and 2027. Other forms of current revenue are set to grow mostly in line with GDP, except for social contributions, whose share in GDP is forecast to decline over time. Capital revenue as a share of GDP is projected to peak in 2026, before declining in 2027, reflecting the profile of EU-funded investment.

³ The non-accelerating inflation rate of unemployment is the lowest level of unemployment that can be maintained in an economy without triggering accelerating inflation.

The share of current expenditure in GDP is forecast to decline from 2025 onwards, mainly due to the profile of subsidies. This reflects lower anticipated spending on inflation-mitigation measures, in line with the assumed profile for international energy prices. Outlays on intermediate consumption are set to increase at a rate exceeding GDP growth in 2025, but their share in GDP is set to stabilise in 2026 and 2027. Compensation of employees is set to retain an unchanged ratio to GDP in 2025, after having grown strongly in 2024, mainly as a new collective agreement for the civil service counterbalances the negative base effect from one-off payments incurred in 2024 in terms of other collective agreements. The share of interest payments in GDP is set to incrementally rise each year throughout the projection period. This reflects the gradual pass-through of past interest rate increases and higher refinancing needs. Meanwhile, the share of social benefits in GDP is set to decline, in part reflecting the impact of an increase in the statutory retirement age in 2026 and the strong labour market conditions.

The share of capital expenditure in GDP is projected to decline in 2025, following exceptional outlays such as those related to the restructuring of the national airline in 2024. It is then set to remain unchanged in 2026, and to fall again in 2027. This reflects different profiles for the main components of capital expenditure, i.e. gross fixed capital formation (“GFCF”) and capital transfers. GFCF is forecast to grow by more than nominal GDP in 2025 and in 2026, driven by the profile of EU-funded investment. This includes projects financed by grants from the RRF programme, which are set to be utilised by 2026. Consequently, EU-funded outlays are set to decline in 2027. The share of domestically-funded investment to GDP is set to decline over the forecast period. Meanwhile, capital transfers are set to decline in both level terms and as a share of GDP.

The structural budget deficit is projected to narrow substantially over the projection horizon, reaching 2.70% of GDP by 2027 from 4.30% in 2024.⁴ This partly reflects the declining profile of inflation mitigation measures, which are not treated as temporary outlays, and thus affect the structural position. The declining structural deficit reflects slower growth in net nationally financed primary expenditure. The general government debt ratio is projected to peak at 48.70% in 2026 before easing slightly in 2027, driven by narrowing primary deficits and a favourable interest-growth differential.

8.2 PROPERTY MARKET⁵

Data provided by the NSO shows that in 2024, 1,649 permits were granted for the construction of 8,716 new dwellings, representing a year-on-year increase of 7.42%. Most of the approved new dwellings comprised apartments, which totalled 6,177 units (2023: 5,755 units), representing 70.87% of the total number of approved residential units in 2024. The remaining approved new units were penthouses, which totalled 1,366 units (2023: 1,271 units), maisonettes – 783 units (2023: 714 units), terraced houses – 283 units (2023: 292 units), and other types of dwellings including villas, bungalows, town houses, houses of character, and farmhouses, which totalled 107 units (2023: 82 units). By region, the largest number of approved new dwellings was in the Northern Harbour district with 2,529 units (2023: 2,211 units), followed by the Northern district with 1,631 units (2023: 1,851 units) and the South Eastern district with 1,177 units (2023: 1,143 units). The Southern Harbour and Western districts accounted for 1,120 units (2023: 877 units) and 834 units (2023: 791 units) respectively, whilst Gozo and Comino registered 1,425 units (2023: 1,241 units).

In H1 2025, 1,023 permits were granted for the construction of 5,170 new dwellings, representing a year-on-year increase of 9.70% in the supply of residential units. Apartments remained the predominant residential type, accounting for 3,688 units, representing a 9.66% increase from 3,363 units in H1 2024. Terraced houses experienced a similar growth, increasing by 9.09% to 156 units from 143 units in the prior year’s comparable period. Maisonettes and other type of dwellings surged by around 50% to 632 units (H1 2024: 423 units) and 72 units (H1 2024: 48 units) respectively, whilst the number of approved penthouses declined by 15.49% to 622 units (H1 2024: 736 units).

By region, the largest number of approved new dwellings in H1 2025 was in the Western district with 648 units (H1 2024: 427 units), followed by the South Eastern district with 741 units (H1 2024: 572 units) and the Southern Harbour district with 774 units (H1 2024: 626 units). All other districts registered marginal year-on-year declines.

⁴ The structural balance is defined as the cyclically-adjusted balance, net of temporary government measures.

In nominal terms, the CBM Property Prices Index (“PPI”) – which is based on the advertised sale prices of apartments, maisonettes, terraced houses, and other types of dwellings – increased by 5.62% in 2024 to 181.68 points. The sharpest year-on-year percentage increase took place in the prices of ‘other property’, comprising townhouses, houses of character, and villas, which advanced by 9.45%. The advertised prices of terraced houses and apartments increased by over 8%, whilst maisonettes saw their advertised prices increase by 7.49%.

In H1 2025, the CBM PPI rose further to 189.40 points, representing a year-on-year increase of 5.24%. Price momentum remained positive across all categories of dwellings. Other types of property registered the sharpest percentage growth, increasing by 6.81% year-on-year. Terraced houses and maisonettes followed, with annual increases of 3.62% and 2.53% respectively, whilst apartments recorded marginal year-on-year growth of 1.29%.

The NSO Residential Property Price Index (“RPPI”) – which is based on actual transactions involving apartments, maisonettes and terraced houses – registered an increase of 6.67% to 163.65 points in 2024. In aggregate, the prices of apartments and maisonettes, which represent the lion’s share of the market, rose by 6.46%, with apartment prices increasing by 6.50% whilst maisonette prices recording a year-on-year increase of 6.33%.

In H1 2025, the NSO RPPI rose further to 171.93 points, representing a year-on-year increase of 5.65%. In aggregate, the prices of apartments and maisonettes rose by 5.45%, with apartment prices increasing by 5.15% whilst maisonette prices recorded a year-on-year increase of 6.71%.

Meanwhile, in terms of transactions, throughout 2024 a total of 12,598 final deeds of sale relating to residential property were registered compared to 12,180 deeds in 2023 and 14,331 deeds in 2022. The total value of final deeds of sale increased by 8.02% in 2024 to a new record of €3.52 billion compared to €3.26 billion in 2023 and €3.30 billion in 2022. Furthermore, the average value per deed of sale increased to €279,362 compared to €267,504 in 2023 and €230,242 million in 2022

During H1 2025, 6,394 final deeds of sale were registered, slightly higher than the 6,348 deeds recorded in the corresponding period in 2024. The total value of final deeds of sale rose to €1.84 billion compared to €1.73 billion in H1 2024, marking an increase of 6.61% on a year-on-year basis. This led to a 5.84% increase in the average value per deed, which climbed to €287,926 in H1 2025 from €272,038 a year earlier, reflecting continued resilience in transaction values despite a relatively stable volume of concluded deals.

8.3 DEMOGRAPHY AND LONG-TERM CARE ⁶

Long-term care covers a broad range of services. It is usually defined as a set of services required by persons with a reduced degree of functional capacity (whether physical or cognitive) and who, as a consequence of this, are dependent for an extended period of time on help with their activities of daily living. These services are often provided in tandem with basic medical services such as nursing care, prevention, rehabilitation, or services of palliative care.

Long-term care provided as 'in-kind' refers to home care or institutional care. The former is delivered in the private home of the care recipient and is most appropriate for cases with lower levels of dependency, aiming to slow down the progression of dependency as recipients age. On the other hand, institutional care is delivered in a specialised institution in which the care recipient lives. It is most appropriate for cases with relatively high degrees of dependency with high care needs.

Projections prepared by the United Nations Population Division show that the age structure of the Maltese population is expected to continue changing dramatically in the years and decades ahead. The share of the population aged up to 29 years is projected to decrease from 28.93% in 2024 to 23.12% in 2050 and 21.85% in 2070. Similarly, the share of the population aged between 30 years and 69 years is projected to decrease from 56.52% in 2024 to 54.20% in 2050 and 43.21% in 2070. In contrast, the share of the population over 69 years is projected to increase from 14.55% in 2024 to 22.68% in 2050 and 34.94% in 2070.

From an economic perspective, the most important change in demography concerns the working-age population (aged 20-64 years), which reflects the share of the population that will bear the financial 'burden' of the elderly. From a share of 62.52% in 2024, this ratio is projected to fall to 56.20% by 2050, and to 46.49% by 2070.

The dynamics of the ageing process can also be analysed by examining changes in the relative share of the elderly population compared to the working-age population. These dependency ratios relate to the number of individuals that are likely to be dependent on the support of others for their daily living – youths and the elderly – to the number of those individuals who can provide such support. Key indicators of age dependency are the:

- **Old-age dependency ratio** – calculated for both: (i) persons aged 65 years and over relative to the number of individuals aged between 20 and 64 years; and (ii) for persons aged 75 years and over relative to the number of individuals aged between 20 years and 74 years.

- *Ageing of the aged ratio* – which measures the proportion of the ‘oldest old’ (people aged 80 years and over) within the elderly population (i.e. those aged 65 years and over).

The old-age dependency ratio for persons aged 65 years and over is projected to increase from 32.33% in 2024 to 54.52% in 2050 and 87.08% in 2070. The old-age dependency ratio for persons aged 75 years and over is projected to increase from 12.92% in 2024 to 22.31% in 2050 and 47.65% in 2070. Meanwhile, the ageing of the aged ratio is projected to increase from 23.48% in 2024 to 34.02% in 2050 and 47.75% in 2070.

Against this background, it is expected that both the quantity and the quality of demand for long-term care will continue to intensify, particularly for the services provided by community care centres and other state-run institutions, as well as facilities operated by the Church and the private sector. Indeed, expenditure on long-term care is forecast to rise significantly over the coming decades as spending is projected to increase from 1.2% of GDP in 2022 to 1.8% in 2050 and 3.4% in 2070. The vast majority of this expenditure is expected to remain concentrated on institutional care, which on its own is projected to absorb 3.1% of GDP by 2070, compared to just 1% in 2022.

This estimated increase in spending aligns with the anticipated growth in the number of dependent individuals requiring formal care. The number of people receiving institutional care is set to rise from 5,000 in 2022 to 10,000 by 2050 (representing 1.87% of the total population) and almost double again to 18,000 by 2070 (accounting for 3.75% of the population). At the same time, the demand for home care services is also projected to expand significantly. In 2022, around 21,000 dependent individuals received home care, but this figure is expected to reach 38,000 by 2050 and further increase to 63,000 by 2070. By that time, home care beneficiaries will represent 13.11% of the total population compared to around 4% in 2022.

These developments point towards a dual challenge for policymakers and service providers: firstly, to expand capacity and improve efficiency in institutional care settings, and secondly, to strengthen the infrastructure and workforce supporting home-based and community-oriented care. Investment in both areas will be critical to ensure that future demand is met in a sustainable and equitable manner, while also maintaining high standards of care and supporting the dignity and autonomy of an increasingly ageing population.

STATEMENT OF COMPREHENSIVE INCOME

Revenues generated by the Group amounted to €7.66 million in **FY2022**, of which just over 30% (or €2.31 million) emanated from the sale of property forming part of Oak Ridge (€1.45 million), Breezy Village (€0.71 million), Fairwinds (€0.08 million), and The Oaks (€0.08 million). Most of the remaining revenues of the Group, amounting to €5.29 million, were generated by Golden Care which, on a standalone basis, recorded an EBITDA of almost €1 million which translated into a margin of 18.88%. On the other hand, the real estate development segment of the Group registered an EBITDA of €0.76 million (margin of 33.07%), representing 43.36% of the Group's total EBITDA of €1.76 million.

After taking into account depreciation and amortisation charges (€0.27 million), net finance costs (€0.43 million), and tax charges (€0.18 million), PLAN Group reported a net profit of €0.90 million which translated into a margin of 11.61%, a return on equity ("ROE") of 6.94%, and a return on assets ("ROA") of 2.27%.

Total revenues surged by 71.54% in **FY2023** to €13.13 million amid a substantial increase in the level of income derived from the sale of property which amounted to €7.54 million (or 57.39% of total Group revenues). The latter was boosted by the contracted sales appertaining to The Oaks which amounted to €6.69 million, whilst income from Breezy Village and Fairwinds stood at €0.62 million and €0.23 million respectively. Meanwhile, income from the Group's elderly care homes amounted to €5.52 million – representing a year-on-year increase of 4.33% – and was mostly generated by Golden Care since Porziuncola only welcomed its first residents in November 2023.

EBITDA recorded by the Group amounted to €4.28 million, of which €2.85 million (or 66.65%) derived from the sale of property whilst the remaining €1.43 million (or 33.35%) emanated from the operation of the elderly care homes. The latter translated into a segment EBITDA margin of 25.86% whilst the EBITDA margin of the real estate development division stood at 37.81%. Meanwhile, given the considerable increase in EBITDA, the interest cover strengthened to 5.05 times compared to 4.12 times in the prior year.

During FY2023, the Group's share of results from its shareholding in Gap Group amounted to €3.26 million. Since no such income was registered in FY2022, the profit for the year increased markedly to €5.99 million which also led to a corresponding uplift in the net profit margin to 45.62%. Likewise, the ROE and the ROA trended higher to 26.53% and 9.64% respectively.

Within other comprehensive income, the Issuer recorded a net gain of €4.47 million in the fair value of the temporary emphyteutical concession on Porziuncola which took place in the second half of the year following completion of development of the care home. As a result, total comprehensive income for the year amounted to €10.46 million.

In **FY2024**, the Group registered total revenue of €12.91 million, representing a marginal contraction of 1.72% when compared to the prior year. This decline was primarily attributable to the lack of real estate stock available for sale, which led income from this segment to fall sharply to just €0.87 million.⁷ In contrast, revenue from elderly care homes more than doubled to €11.98 million, accounting for 92.81% of total revenue. This reflects the first full-year contribution from Porziuncola – albeit still operating well below full occupancy – compared to just two months of operations in FY2023.

⁷ Income from real estate development derived from four projects, namely: The Oaks – €0.31 million; Breezy Village – €0.30 million; Fairwinds – €0.23 million; and Oak Ridge – €0.04 million.

Net operating expenses increased by 10.86% to €9.82 million, supporting the growth in the care home business. As a result, EBITDA contracted by 27.78% to €3.09 million, with the relative margin easing to 23.93% from 32.56% in FY2023, as the higher contribution from the elderly care homes was not enough to offset the decline in real estate development activity. Indeed, the EBITDA contribution from real estate development dropped to €0.48 million, while elderly care homes increased materially to €2.61 million (translating into an EBITDA margin of 21.79%).

Depreciation charges rose markedly to €1.88 million in FY2024, up from €0.53 million in the previous year, driven by the investment in long-term operational assets. Consequently, operating profit fell significantly from €3.75 million in FY2023 to €1.21 million in FY2024, translating into a margin of 9.37% (FY2023: 28.54%) and a return on invested capital ("ROIC") of 1.54% (FY2023: 7.15%).

The share of results of the associate company increased notably to €4.86 million, thus absorbing much of the contraction in operating profit. On the other hand, net finance costs increased substantially to €1.25 million (FY2023: €0.85 million), thus contributing further to the reduction in the interest cover to 2.48 times.

Profit before tax declined by 21.66% to €4.83 million. After accounting for a positive tax credit of €0.10 million, the Group reported a net profit for the year of €4.93 million, translating into a net profit margin of 38.21%. The ROE and the ROA both trended lower year-on-year to 13.32% and 5.40% respectively. Total comprehensive income stood at €9.38 million after accounting for a net gain of €4.44 million in the fair value of Golden Care.

For **FY2025**, the Group is forecasting a strong rebound in its financial performance, with total revenues expected to surge to €27.75 million on the back of growth across all operations. Elderly care homes are expected to generate €17.21 million in revenue (representing 62.02% of total revenue), marking a year-on-year increase of 43.65%, driven by the increase in occupancy at Porziuncola to full capacity. Furthermore, income from real estate development is forecast to rise substantially to €10.54 million (37.98% of total revenue) reflecting the recognition of property sales appertaining to three projects, namely: Hazelmoor (€6.35 million), Elmswater (€3.20 million), and MRose Grove (€0.93 million).

Net operating expenses are forecast to increase significantly to €20.45 million, almost in line with the overall boost in business. Nonetheless, EBITDA is projected to improve materially to €7.29 million. Segment-wise, real estate development is expected to contribute €3.09 million in EBITDA (representing 42.38% of total EBITDA) whilst EBITDA from elderly care homes is forecast at €4.20 million (57.62% of total EBITDA).

At Group level, the EBITDA margin is forecast to improve by 236 basis points to 26.29%. Real estate development is expected to achieve a margin of 29.33% whilst the EBITDA margin for elderly care homes is forecast at 24.42%.

Depreciation charges are forecast to ease slightly year-on-year to €1.79 million, thus leading to an operating profit of €5.50 million, equating to an operating margin of 19.84% and a ROIC of 5.80%.

The share of results of associate company is projected to drop to €2.45 million whilst net finance costs are expected to increase by 24.90% to €1.56 million. Despite the increase in net finance costs, the interest cover is still forecast to strengthen significantly to 4.69 times on the back of the upsurge in EBITDA.

Profit before tax is forecast at just under €6.40 million. After accounting for a projected tax charge of €0.91 million, the Group expects to register a net profit of €5.49 million, translating into a margin of 19.79%. Despite the year-on-year increase in profitability, the ROE and ROA are forecast to ease to 12.35% and 4.92% respectively, reflecting the material expansion in the Group's equity base and asset portfolio.

For **FY2026**, the Group is projecting a 22.42% decline in revenue to €21.53 million due to a sharp contraction in real estate development income amid a limited supply of units available for sale. Income from this segment is expected to fall by €6.56 million to €3.97 million, representing 18.46% of total revenue. On the other hand, the elderly care homes segment is forecast to generate €17.55 million in revenue, reflecting a marginal 2% increase relative to FY2025 and accounting for 81.54% of total revenue.

Within the real estate development segment, the projected reduction in revenue is spread across all current projects. On the other hand, the Mellieha Development, which will not generate any revenue in FY2025, is projected to contribute €1.15 million in income in FY2026.

EBITDA is projected to decline by 28.82% to €5.19 million. EBITDA from real estate development is expected to contract sharply to €0.90 million reflecting the substantial decline in segmental revenue. Conversely, the elderly care homes segment is expected to deliver a 2.19% increase in EBITDA to €4.30 million, representing 82.72% of total EBITDA. At Group level, the EBITDA margin is projected to contract by 217 basis points to 24.12%. The elderly care homes segment is expected to maintain a stable EBITDA margin of 24.47% whilst the EBITDA margin of the real estate development segment is anticipated to deteriorate to 22.57%.

Depreciation is projected at €1.81 million, resulting in an operating profit of €3.39 million, down 38.46% year-on-year, with the operating profit margin and ROIC expected to decline to 15.73% and 3.06% respectively.

The share of results of the associate company is forecast at €1.50 million, representing a year-on-year reduction of 38.78%. Meanwhile, net finance costs are projected at €1.48 million, 4.82% lower than the forecast level for FY2025, albeit the interest cover is expected to deteriorate to 3.51 times reflecting the anticipated contraction in EBITDA.

Profit before tax is forecast at €3.41 million, down 46.76% relative to FY2025. After an estimated tax charge of €0.41 million, profit for the year is expected to decline by 45.42% to just under €3 million, resulting in a net profit margin of 13.92%. The ROE and ROA are also projected to trend lower year-on-year to 6.15% and 2.22% respectively.

STATEMENT OF CASH FLOWS

The Group registered an adverse net movement in cash and cash equivalents amounting to €0.51 million in **FY2022**. Net cash flows used in operating and investing activities amounted to €2.80 million and €0.68 million respectively. These were partly offset by net cash inflows of €2.98 million from financing activities which mainly related to movements in borrowings.

In **FY2023**, the Issuer recorded a positive net movement in cash and cash equivalents of €0.37 million. Although the Group used a total of €18.51 million for its operating (€5.31 million) and investing (€13.20 million) activities, with the latter mostly being related to the completion of Porziuncola and the acquisition of the Birżebbuġa Site, during the year PLAN Group successfully issued the 2023 Bonds and took on additional bank borrowings. Overall, the Issuer ended the 2023 financial year with a cash balance of €1.46 million compared to €1.09 million as at 31 December 2022.

In **FY2024**, the Group consumed €2.87 million in net cash for its operating activities. Despite the year-on-year improvement, operating cash flows remained negative mostly due to adverse movements in working capital, which amounted to €4.85 million, as well as higher net finance costs.

Cash used in investing activities amounted to €1.66 million reflecting capital expenditure on property, plant and equipment (“**PPE**” – €1.66 million). As a result, free cash flow remained negative at €4.53 million, albeit much lower than the negative free cash flow of €18.51 million registered in FY2023.

In contrast, the Group generated €3.82 million in net cash from financing activities, primarily through new bank borrowings. This funding was partly sufficient to offset the free cash flow shortfall, resulting in an aggregate negative net movement in cash and cash equivalents of €0.71 million for the year. Consequently, cash and cash equivalents decreased to €0.76 million as at 31 December 2024.

For **FY2025**, the Issuer is projecting a material outflow of €12.36 million in net operating cash flows, primarily driven by a significant adverse movement in working capital particularly related to inventories. Furthermore, net interest and tax payments are estimated to increase year-on-year, reflecting the higher level of borrowings and profitability.

Net cash outflows related to investing activities are expected to amount to €0.15 million, reflecting a marginal addition to PPE.

The Group's cash position is projected to be bolstered by a significant inflow from financing activities amounting to €23.02 million, primarily reflecting net borrowings of €22.94 million. Despite the negative free cash flow of €12.51 million, the strong financing inflows are anticipated to result in a net increase in cash and cash equivalents of €10.52 million, thus leading to a year-end balance of €11.27 million.

In **FY2026**, net cash used in operating activities is projected to decrease to €10.34 million, primarily due to a lower negative movement in working capital compared to the prior year, partially offset by higher net interest payments.

Net cash used in investing activities is forecast at €3.56 million, largely reflecting the ramp up in activity related to the construction of the Qajjenza Care Home. Meanwhile, financing activities are expected to generate net cash inflows of €19.95 million, mainly comprising net borrowings of €16.32 million and dividend income of €3 million. Overall, the Group is forecasting a net positive movement in cash and cash equivalents of €6.05 million, thus lifting the year-end cash balance to €17.32 million.

STATEMENT OF FINANCIAL POSITION

The Group's statement of financial position as at the end of **FY2022** comprised total assets of €39.10 million made up of: (i) property, plant, and equipment ("**PPE**" – €15.87 million); (ii) inventory (€10.03 million – mostly being property and inventory held for resale, as well as property development work-in-progress); (iii) right-of-use asset (€7.09 million – representing the present value of the leased land on which Porziuncola was constructed); and (iv) other assets totalling €6.11 million.

Total equity stood at €12.82 million and mainly comprised revaluation and other reserves (€9.04 million) and retained earnings (€3.28 million). On the other hand, total liabilities amounted to €26.28 million and comprised debt (€21.42 million) and other payables (€4.86 million).

During **FY2023**, the Group increased its total assets by €46.12 million to €85.22 million mostly due to the higher levels of PPE (+€16.92 million to €32.79 million), inventory (+€8.27 million to €18.31 million), right-of-use asset (+€6.76 million to €13.85 million), and trade and other receivables (+€3.77 million to €7.15 million). Throughout the year, PLAN Group also acquired the one-third ownership of Gap Group Investments (II) Limited which is the parent company of Gap Group.

The Group financed the increase in its asset base mainly through the strengthening of its equity base (via issued share capital) which stood at €32.34 million as at 31 December 2023, and by expanding its obligations principally through an increase in total debt to just under €41 million. Despite the increase in indebtedness, all debt ratios of the Group improved year-on-year, as the net debt-to-equity ratio and the net gearing ratio slipped to 1.22 times (31 December 2022: 1.58 times) and 54.92% (31 December 2022: 61.26%) respectively. Likewise, the debt-to-assets ratio trended lower to 0.48 times from 0.55 times as at the end of FY2022 whilst the leverage ratio dropped to 2.64 times from 3.05 times as at 31 December 2022.

The Group's financial position strengthened further in **FY2024**, with total assets rising by 14.20% to €97.32 million. This growth was mainly driven by increases across non-current assets, particularly in PPE which expanded by €7.36 million to €40.16 million, and in the investment in associate, which increased by €4.86 million to €16.04 million (31 December 2023: €11.18 million). Meanwhile, current assets remained broadly stable at €26.89 million, as the slight increase in trade and other receivables was offset by a decline in inventory and cash and cash equivalents.

On the funding side, total equity increased by €9.38 million to €41.72 million, mainly on account of the gain recorded in the other comprehensive income related to revaluation reserves, and a €4.98 million rise in retained earnings to €8.45 million.

Total liabilities increased by only €2.72 million to €55.61 million (31 December 2023: €52.88 million) as the €3.91 million rise in bank borrowings to €25.62 million was partly offset by a €1.41 million reduction in trade and other payables to €8.08 million. These dynamics led to improvements in key debt metrics, with the net debt-to-equity ratio, the net gearing ratio, and the leverage ratio all trending lower to 1.06 times, 51.39%, and 2.33 times respectively. Likewise, the debt-to-assets ratio eased to 0.46 times whilst the current ratio improved to 3.69 times from 3.32 times as at the end of FY2023. On the other hand, in view of the €4.69 million increase in net debt to €44.09 million and the contraction in EBITDA, the net debt-to-EBITDA multiple deteriorated notably to 14.28 times from 9.21 times in the prior year.

In **FY2025**, the Group is forecasting a significant expansion in total assets to €125.96 million (+€28.64 million year-on-year). This increase is anticipated to be fuelled primarily by current assets, which are projected to increase markedly to €54.72 million. Inventory is expected to almost double to €34.59 million, reflecting ongoing real estate development activity as well as the purchase of new sites for development. Trade and other receivables are forecast to rise to €8.55 million, while cash and cash equivalents are projected to rise considerably to €11.58 million.

Non-current assets are forecast to remain relatively stable at €71.24 million. A slight reduction in PPE to €38.73 million is expected to be offset by a further increase in the value of the Group's investment in associate to €18.49 million. Right-of-use assets are projected to remain stable at €13.43 million.

Total equity is forecast to expand by a further €5.49 million to €47.21 million, supported by the retention of earnings which are expected to reach €13.60 million.

Total liabilities are forecast to increase by €23.15 million to €78.75 million, primarily due to the issuance of new debt securities supporting the Group's real estate development plans. Accordingly, total debt is estimated to increase significantly to €68.27 million (31 December 2024: €45.16 million). Likewise, net debt is expected to reach €56.69 million, representing a year-on-year increase of €12.60 million.

The higher debt level is expected to be offset by the increase in EBITDA, resulting in a marked improvement in the net debt-to-EBITDA multiple to 7.77 times. However, the net debt-to-equity ratio and the net gearing ratio are forecast to rise to 1.20 times and 54.56% respectively. Similarly, the debt-to-assets ratio is projected to deteriorate to 0.54 times, whilst the leverage ratio is expected to increase to 2.67 times.

Total assets are projected to increase by €18.13 million in **FY2026** to €144.08 million. The expected expansion is primarily driven by higher levels of inventory (+€14.15 million to €48.73 million) and PPE (+€1.96 million to €40.69 million) – both reflecting ongoing capital investment and real estate development activities – as well as cash and cash equivalents (+€6.05 million to €17.63 million). Conversely, trade and other receivables are expected to decline by €2.32 million to €6.23 million, and the value of the investment in associate is forecast to fall by €1.50 million to €16.99 million.

Total equity is projected to strengthen by almost €3 million to €50.21 million, driven by higher retained earnings which are forecast to increase by €2.91 million to €16.51 million.

Total liabilities are projected to increase sharply by €15.13 million to €93.88 million. This rise is largely attributable to higher indebtedness, with total debt forecast to grow by €16.49 million to €84.76 million. Bank borrowings are expected to rise by €4.32 million to €24.88 million, while debt securities are projected to increase by €12 million to €51.76 million. On the other hand, lease liabilities are anticipated to remain broadly stable at €8.12 million whilst current and non-current trade and other payables are forecast to decrease modestly by €1.37 million to €6.75 million.

In view of the projected increase in indebtedness and reduction in EBITDA, the net debt-to-EBITDA multiple is forecast to deteriorate markedly to 12.93 times. Similarly, the net debt-to-equity ratio is expected to increase to 1.34 times whilst the debt-to-assets ratio is projected to rise to 0.59 times. Net gearing is also forecast to trend higher to 57.21% whilst the Group's leverage ratio is anticipated to reach 2.87 times. In terms of liquidity, the Group's current ratio is projected to strengthen to 9.02 times from 7.13 times as at the end of FY2025, largely reflecting the projected growth in cash balances and inventories.

PART 3 – COMPARATIVE ANALYSIS

The table below provides a comparison between the Group and its bonds with other debt issuers and their respective debt securities listed on the Regulated Main Market (Official List) of the Malta Stock Exchange. Although there are significant variances between the activities of the Group and those of other debt issuers (including different industries, principal markets, competition, capital requirements etc.), and material differences between the risks associated with the Group's business/es and those of other debt issuers, the comparative analysis illustrated in the table below serves as an indication of the relative financial strength and creditworthiness of the Group.

<i>Share of results of associates and joint ventures</i>	Share of profit (or loss) from entities in which the company does not have a majority shareholding.
<i>Profit / (loss) after tax</i>	Net profit (or loss) registered from all business activities.

STATEMENT OF FINANCIAL POSITION

<i>Non-current assets</i>	These represent long-term investments which full value will not be realised within the next twelve months. Such assets, which typically include property, plant, equipment, and investment property, are capitalised rather than expensed, meaning that the amortisation of the cost of the asset takes place over the number of years for which the asset will be in use. This is done instead of allocating the entire cost to the accounting year in which the asset was acquired.
---------------------------	---

<i>Current assets</i>	All assets which could be realisable within a twelve-month period from the date of the Statement of Financial Position. Such amounts may include development stock, accounts receivable, cash and bank balances.
<i>Non-current liabilities</i>	These represent long-term financial obligations which are not due within the next twelve months, and typically include long-term borrowings and debt securities.
<i>Current liabilities</i>	Liabilities which fall due within the next twelve months from the date of the Statement of Financial Position, and typically include accounts payable and short-term debt.
<i>Total equity</i>	Represents the residual value of the business (assets minus liabilities) and typically includes the share capital, reserves, as well as retained earnings.

FINANCIAL STRENGTH / CREDIT RATIOS

<i>Interest cover</i>	Measures the extent of how many times a company can sustain its net finance costs from EBITDA.
<i>Net debt-to-EBITDA</i>	Measures how many years it will take a company to pay off its net interest-bearing liabilities (including lease liabilities) from EBITDA, assuming that net debt and EBITDA are held constant.
<i>Net debt-to-equity</i>	Shows the proportion of net debt (including lease liabilities) to the amount of equity.
<i>Net gearing</i>	Shows the proportion of equity and net debt used to finance a company's business and is calculated by dividing net debt by the level of invested capital.
<i>Debt-to-assets</i>	Shows the degree to which a company's assets are funded by debt and is calculated by dividing all interest-bearing liabilities (including lease liabilities) by total assets.
<i>Leverage</i>	Shows how many times a company is using its equity to finance its assets.
<i>Current ratio</i>	Measures the extent of how much a company can sustain its short-term liabilities from its short-term assets.
